

IGCSE English as a Second Language 0510

Unit 4 Witness the fitness

Recommended Prior Knowledge

This unit can be used at any stage of the course. It does not assume knowledge of previous units. Students have achieved a lower intermediate level of English to handle the materials effectively.

Context

The unit is suitable for both core and extended tier of students and can be used on teenagers in secondary schools. Teachers can use the teaching activities to devise their own lesson plans, picking and choosing from the activities. It is assumed that the teacher will structure open and closed questions to check vocabulary and comprehension, correct errors, monitor the acquisition of skills and carry out preparatory exercises of their own if students lack experience or skills for the activity. The teacher is free to extend the unit with further ideas and materials to suit their particular situation and the needs of their learners. The activities and materials can be adapted to mixed ability classes by giving more or less guidance, shortening or extending activities, simplifying or editing material or closing some of the information gaps.

Outline

The content aim of the unit is for students to develop a greater understanding of environmental issues, including nuclear and alternative sources of power, climate change and global warming and natural disaster.

The language aim of the unit is for students to develop the skills required to discuss the issues and read and write about them. The skills are broken down into micro-skills under the 'Learning Outcomes' column. The teaching activities suggest a variety of methods for achieving the learning outcomes. It is hoped that the materials and activities will be thoroughly exploited in the classroom so that students can gain real benefit from doing them and clearly move forward in their skills as well as grow in confidence. In general, they are not materials or activities that should be rushed through, to 'get on to the next thing,' which would cut out a lot of potential learning. The activities include opportunities for information sharing, giving supportive peer feedback, sharing positive criticism and evaluation and providing scope for individual presentations. In addition, the materials and activities enable the development of underpinning knowledge and skills including: vocabulary, spelling, punctuation, paragraphing, sentence structure, tone, style and register. The degree of confidence with which the students achieve the learning outcomes will depend on their starting points, learning approaches, time for examples and practice. It is hoped that teachers will be able to expand on the unit as they judge best for their situation, with supplementary ideas of their own.

The learning resources are internet and textbook based. If teachers judge that students need more help to achieve the learning outcomes, they are advised to extend the unit at any stage with reinforcement activities of their own choosing.
