Machine Learning for Powder-Based Metal Additive Manufacturing Gurminder Singh, Farhad Imani, Asim Tewari, Sushil Mishra, 2024-09-04. Machine Learning for Powder based Metal Additive Manufacturing outlines machine learning (ML) methods for additive manufacturing (AM) of metals that will improve product quality, optimize manufacturing processes and reduce costs. The book combines ML and AM methods to develop intelligent models that train AM techniques in pre processing, process optimization and post processing for optimized microstructure, tensile and fatigue properties and biocompatibility for various applications. The book covers ML for design in AM, ML for materials development and intelligent monitoring in metal AM, both geometrical deviation and physics informed machine learning modeling as well as data driven cost estimation by ML. In addition, optimization for slicing and orientation, ML to create models of materials for AM processes, ML prediction for better mechanical and microstructure prediction and feature extraction by sensing data are all covered and each chapter includes a case study. Covers machine learning (ML) methods for additive manufacturing (AM) of metals that will improve product quality, optimize manufacturing processes and reduce costs. Combines ML and AM methods to develop intelligent models that train AM techniques in pre processing, process optimization and post processing for optimized microstructure, tensile and fatigue properties and biocompatibility for various applications. Discusses algorithm development of ML for metal AM, metal AM process modeling and optimization, mathematical and simulation studies of metal AM and pre and post processing smart methods for metal AM.
