If China seems unstoppable so too does its leader Xi Jinping As General Secretary of the Chinese Communist Party and President of China he commands over 1.4 billion people in a vast country that spans the prosperous megacities of Beijing and Shanghai and desperately poor rural regions where families still struggle with malnutrition Today Xi Jinping faces a series of monumental challenges that would make other global leaders tremble a trade war with the USA political unrest in Hong Kong accusations of genocide in Xinjiang stuttering economic growth and a devastating global pandemic that originated inside China But who is Xi Jinping and what does he really want To rejuvenate China and bring economic prosperity to all its people To challenge American supremacy and turn China into the world's dominant power Avoiding both sycophantic flattery and outright condemnation this new biography by Stefan Aust and Adrian Geiges gets inside the head of one of the world's most mysterious leaders Skilfully unravelling the hidden story of Xi Jinping's life and career from his early childhood to his rise to the pinnacles of the Party and the State they flesh out his views and uncover how he became the most powerful man in the world This biography of China's leader will be indispensable for anyone interested in China and where it is heading Also available as an audiobook *China's Regional Relations in Comparative Perspective* Steven F. Jackson, 2018-02-06

globally **Stronger** Ryan Hass, 2021-03-09 An examination of the U S China relationship that charts a new path for America focusing on its existing advantages Ryan Hass charts a path forward in America s relationship and rivalry with China rooted in the relative advantages America already possesses Hass argues that while competition will remain the defining trait of the relationship both countries will continue to be impacted for good or ill by their capacity to coordinate on common challenges that neither can solve on its own such as pandemic disease global economic recession climate change and nuclear nonproliferation Hass makes the case that the United States will have greater success in outpacing China economically and outshining it in questions of governance if it focuses more on improving its own condition at home than on trying to impede Chinese initiatives He argues that the task at hand is not to stand in China s way and turn a rising power into an enemy in the process but to renew America s advantages in its competition with China *The European Handbook of Central Asian Studies* Jeroen Fauve, Adrien De Cordier, B.
