Research Methodology Alexander M. Novikov, Dmitry A. Novikov, 2013-04-25 Research Methodology From Philosophy of Science to Research Design distinguishes itself from many other works devoted to research methodology and the philosophy of science in its integrated approach towards scientific research which is regarded as the scientific project on all levels from philosophy of science to research design This work studie *Advances in Design and Digital Communication III* Nuno Martins, Daniel Brandão, 2022-10-26 This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design graphic design and branding design education society and communication in design practice and related ones Gathering the proceedings of the 6th International Conference on Digital Design and Communication Digicom 2022 held on November 3 5 2022 as an hybrid event from Barcelos Portugal and continuing the tradition of the previous book it describes new design strategies and solutions to foster digital communication within and between the society institutions and brands By highlighting innovative ideas and reporting on multidisciplinary projects it offers a source of inspiration for designers of all kinds including graphic and web designers UI UX and social media designers and to researchers advertisers artists and brand and corporate communication managers alike **Research Methodology** Alexander M. Novikov, Dmitry A. Novikov, 2013-04-25 Research Methodology From Philosophy of Science to Research Design distinguishes itself from many other works devoted to research methodology and the philosophy of science in its integrated approach towards scientific research which is regarded as the scientific project on all levels from philosophy of science to research design This work studie **A Systems Perspective on Financial Systems** Jeffrey Yi-Lin Forrest, 2014-03-03 This book is devoted to a systems theoretical presentation of the main results of applying the systemic yoyo model and relevant analytical tools to the topics of money and financial institutions The author presents the main concepts and results of the subject matter in the language of systems science which has in the past century prompted revolut *Research Methodology: Organization of scientific research* Aleksandr Mikhailovich Novikov, 2013 This book distinguishes itself in its integrated approach towards scientific research and studies the basics of the methodology of scientific research and the organization of scientific activity from the viewpoint of systems science and system analysis The book discusses the basics of the methodology including philosophical psychological epistemological and ethical aesthetical foundations the characteristics of scientific activity including principles of scientific cognition the means and methods of scientific research the organization of a research implementation process and its chronological structure and finally the organization of a collective scientific research design **The Golden Rule of Ethics** Vladislav I. Zhukovskiy, Mindia E. Salukvadze, 2021-04-16 This book synthesizes the game theoretic modeling of decision making processes and an ancient moral requirement called the Golden Rule of ethics GR This rule states Behave to others as you would like them to behave to you The GR is one of the oldest most

widespread and specific moral requirements that appear in Christianity Islam Judaism Buddhism and Confucianism This book constructs and justifies mathematical models of dynamic socio economic processes and phenomena that reveal the mechanism of the GR and are based on the concept of Berge equilibrium The GR can be naturally used for resolving or balancing conflicts and its altruistic character obviously excludes wars blood letting and armed clashes The previous book by the authors The Berge Equilibrium A Game Theoretic Framework for the Golden Rule of Ethics covers the static case of the GR In this book the dynamic case of the GR is investigated using the altruistic concept of Berge equilibrium and three factors as follows 1 a modification of N N Krasovskii s mathematical formalization of differential positional games DPGs in view of the counterexamples given by A I Subbotin and A F Kononenko 2 the method of guiding control proposed by N N Krasovskii and 3 the Germier convolution of the payoff functions of different players Additionally this book features exercises problems and solution tips collected together in Appendix 1 as well as new approaches to conflict resolution as presented in Appendices 2 to 4 This book will be of use to undergraduate and graduate students and experts in the field of decision making in complex control and management systems as well as anyone interested in game theory and applications
