defining theme through King's 40 year career from his earliest writings to his most recent novels and films made from them Stephen King begins by tracing Stephen King's rise from his formative years to his status as a one of the most popular writers in publishing history It then takes a close look at the major works from his canon including *The Shining* *The Stand* *It* *Dolores Claiborne* and *The Dark Tower* In these works and others author Tony Magistrale focuses on King's deep rooted sense of the American experience exemplified by his clear eyed presentation of our historical and cultural foibles and scars his gallery of unlikely friendships that cross race age and class boundaries and his transcendent portrayals of uniquely American survival instincts fellowship and acts of heroism from the least likely of sources The Modern Weird Tale S.T. Joshi, 2015-11-16 This is a critical study of many of the leading writers of horror and supernatural fiction since World War II The primary purpose is to establish a canon of weird literature and to distinguish the genuinely meritorious writers of the past fifty years from those who have obtained merely transient popular renown Accordingly the author regards the complex subtle work of Shirley Jackson Ramsey Campbell Robert Aickman T E D Klein and Thomas Ligotti as considerably superior to the best sellers of Stephen King Clive Barker Peter Straub and Anne Rice Other writers such as William Peter Blatty Thomas Tryon Robert Bloch and Thomas Harris are also discussed Taken as a whole the volume represents a pioneering attempt to chart the development of weird fiction over the past half century *Hollywood's Stephen King* T. Magistrale, 2003-11-22 For the past three decades Hollywood has faithfully adapted much of Stephen King's fiction into film Of the many major films that have been made not one has lost money Part of this may be explained in terms of King's own popularity in American culture he has been after all a best selling writer since the late 1970s But more interesting is what this cinematic fascination reveals about postmodern American culture In the first overview of Hollywood's major cinematic interpretations of Stephen King Tony Magistrale examines the various thematic narrative and character interconnections that highlight the relationships among his films Opening with a revealing interview with Stephen King the book takes us through chapters that explore such popular films as *Stand By Me* *Misery* *The Shining* *The Green Mile* and *The Shawshank Redemption* among others
