Mindful Topics on Risk Analysis and Design of Experiments Jürgen Pilz, Teresa A. Oliveira, Karl Moder, Christos P. Kitsos, 2022-05-20 This book provides an overview of the role of statistics in Risk Analysis by addressing theory methodology and applications covering the broad scope of risk assessment in life sciences and public health environmental science as well as in economics and finance Experimental Design plays a key role in many of these areas therefore there is special attention paid to joining Risk Analysis and Experimental Design topics The contributions of this volume originate from the 8th International Conference on Risk Analysis 23-26 April 2019 Vienna The conference brought together researchers and practitioners working in the field of Risk Analysis The most important contributions at the conference have been refereed and developed into chapters to show the latest developments in the field **Education, Engagement, and Youth Crime**

Cassandra Thoars, David Moltow, 2024-06-17 This book presents insights into how affective educational experiences may be associated with youth criminal behaviour and the pathway to recidivism It explores the perspectives and lived school experiences of five young adult male prison inmates including while they were incarcerated as youths Through these case studies the book explores the relationship between affective engagement in education and recidivism This book shows that participants were affectively disengaged from education prior to their initial incarceration in a youth detention facility and that their disaffection before during and after youth incarceration both generated and impacted on their cognitive and behavioural disengagement from education Moreover a range of additional factors not directly causally related to their schooling were shown to have had a significant effect on their engagement in education The book considers a number of key findings First the foundational role that a sense of belonging plays in how young people experience education and its relation to crime Second the importance of individualized transition plans for youth at risk and youth offenders before during and after incarceration Third the extent to which successful transition from youth offending and recidivism hinges on interagency collaboration This book will be beneficial to teacher educators education researchers criminologists and sociologists
