Urban Land Acquisition and Involuntary Resettlement Vincent Roquet, Luciano Bornholdt, Karen Sirker, Jelena Lukic, 2017-03-01 Expansion and development of urban areas require acquisition of land which in turn often requires physical relocation of people who own or occupy this land Land acquisition and resettlement may also be required to improve the lives of the more than 1 billion people who currently live in slums around the world most of them in developing countries Therefore any effort to embark on significant sustainable urban development needs to ensure that there are adequate processes for land acquisition and so that resettlement does not become a constraint to much needed urban development Planners policy makers and social scientists can try to implement urban development programs in a way that make people who lose their land houses or livelihoods become equal partners in the development process The combination of the high price of urban land presence of creative individuals in close proximity in urban areas and the ability of urban space to generate innovative solutions can help convert urban resettlement into a development opportunity for all The report illustrates how urban resettlement can become a development opportunity The Mumbai example shows how the private sector can play a key role to unleash the potential created by high value land to provide sustainable housing solutions to those adversely affected at no cost to the government or the resettlers Examples from Morocco and Pakistan show how well designed and implemented citizen driven resettlement can result in enhanced skills and livelihoods and can promote overall sustainable urban development The Mauritania example demonstrates how collective approaches with strong community participation can help address difficult challenges related to housing The Brazil case shows how resettlement practices with demonstrated strongly positive outcomes and contributions to urban development can influence governments to incorporate them into their own laws and regulations helping millions of affected people to benefit from them **Innovating Strategies and Solutions for Urban Performance and Regeneration** Cristina Piselli, Haşim Altan, Osman Balaban, Peleg Kremer, 2022-07-01 This book focuses on enhancing urban regeneration performance and strategies that pave the way toward sustainable urban development models and solutions The book at hand thoroughly examines the latest studies on the regeneration of urban areas and attempts at alleviating the negative impacts associated with high population density and urban heat effects It gathers contributions that combine theoretical reflections and international case studies on urban regeneration and transformation with the single goal of tackling existing social and economic imbalances and developing new solutions The primary audience of this book will be from the field of architecture and urban planning offering new insights on how to address the myriad of problems that our cities are facing *Assessing the Social Impact of Development Projects* Hari Mohan Mathur, 2015-12-16 This book shows how social impact assessment SIA which emerged barely five decades ago as a way to anticipate and manage potentially negative social impacts of building dams power stations urban infrastructure highways industries mining and other development projects is now widely in use as a planning tool especially in developed

countries Although SIA has still not gained much acceptance among development planners in Asia the situation is gradually changing In India SIA initially mandated as a policy guideline in 2007 is now a legal requirement SIA in China has also recently become obligatory for certain types of development projects Bangladesh Laos Nepal Pakistan and Sri Lanka are other Asian countries that provide examples from a variety of externally funded projects illustrating the use of social impact analysis in project planning to improve development outcomes With contributions from an array of leading experts this book is a valuable resource on SIA indispensable for policymakers planners and practitioners in government international development agencies private sector industry private banks consultants teachers researchers and students of social sciences and development studies also NGOs everywhere not in Asia alone **the inspection panel** World Bank (Washington, USA),2002 **Urban Transport for Growing Cities** Geetam Tiwari,2002 This book is an anthology of articles and information relevant to high capacity bus systems in low and middle income countries with special reference to India Font Size 1 Color FF0000 Limited copies in stock Supply subject to copies available *Compilation of Yojana* Publications Division, A compilation of all the issues of 2015 *Extreme Weather Events and Human Health* Rais Akhtar,2019-11-15 This edited book assesses the impacts of various extreme weather events on human health and development from a global perspective and includes several case studies in various geographical regions around the globe Covering all continents it describes the impact of extreme weather conditions such as flash floods heatwaves cold waves droughts forest fires strong winds and storms in both developing and developed countries The contributing authors also investigate the spread of diseases and the risk to food security caused by drought and flooding Further the book discusses the economic damage resulting from natural disasters including hurricanes It has been estimated that in 2017 natural disasters and climate change resulted in economic losses of 309 billion US dollars Scientists also predict that if nothing is done to curb the effects of climate change in Europe the death toll due to weather disasters could rise 50 fold by the end of the 21st century with extreme heat alone causing more than 150 000 deaths a year as the report on global warming of 1.5 C warns that China Russia and Canada's current climate policies would steer the world above a catastrophic 5 C of warming by the end of 2100 As such the book highlights how the wellbeing of different populations is threatened by extreme events now and in the foreseeable future Lok Sabha Debates India.
