SAP Implementation Unleashed George D. Anderson, Charles D. Nilson, Tim Rhodes, Sachin Kakade, Andreas Jenzer, Bryan King, Jeff Davis, Parag Doshi, Veeru Mehta, Heather Hillary, 2009-05-21 SAP can help you capture better information and deliver it more quickly allowing you to make better decisions and maximize the business value of everything you do However SAP implementations require massive effort total buy in and significant change throughout the organization In SAP Implementation Unleashed 10 expert SAP project managers functional consultants and technologists guide you through the entire journey helping you avoid pain and pitfalls and gain all the benefits of SAP The authors introduce start to finish business technical and project management roadmaps for successful SAP implementation Then drawing on their immense experience they walk you through the entire process of planning and deployment addressing make or break issues and hidden gaps that other guidebooks ignore You ll discover how to employ processes models and toolsets that help you achieve implementation excellence while systematically reducing cost and business risk Along the way you ll find actionable advice and real world insight into innovative project management best suited leadership effective load testing contemporary infrastructure implementation and more George W Anderson is responsible for providing enterprise applications thought leadership for the EDS HP office of the CTO A long time SAP consultant and PMI certified project manager George has authored several best selling books and enjoys new challenges Charles D Nilson is a senior program manager for EDS HP and has led many successful SAP implementation teams over the years He is a PMI PMP and is SAP Partner Academy certified in MM and PP Tim Rhodes is a senior SAP technical consultant for EDS HP and a Basis infrastructure veteran focused on implementing migrating and upgrading SAP Business Suite and NetWeaver solutions Tim is also an SAP certified technical consultant OCP MCSE and HP Master ASE Detailed Information on How To Define the business vision driving your

implementation and use it to design your solution Use TCO techniques to fully understand SAP's financial impact in your organization Structure your SAP project management office business teams technical support organization and overall project team Size plan and test your SAP infrastructure to deliver the best performance and availability at the best cost Integrate SAP into an SOA environment Install and configure SAP Business Suite and NetWeaver components Perform basic functional configuration testing and change management activities Enable a smooth transition by successfully performing the critical tasks that immediately precede SAP Go Live Choose the right mix of tools and applications to test manage and monitor SAP Prepare your SAP Operations team for its post implementation responsibilities *SAP BASIS E-Magazine* Pramod Gowda, In the era of digitalization learning is an art crafted with fascination I take the sole responsibility of drafting and publishing the contents of the e magazine that is designed in line with the real time industry standards The self paced e learning magazine is an opportunity for the learners looking forward to get a broader view of different aspects of SAP and related technologies The e magazine has been divided into six modules with each of them covering different areas of the subject This book has been published in view of audience from various backgrounds with a common goal of learning At the end is a quiz for a quick reflection of learning Overall the e book has been designed in a relatively simple yet largely efficient manner welcoming all the learners **SAP Solution Manager** Markus Bechler, Andreas Hömer, Michael Markert, Timo Steinsberger, René Allissat, Eileen Danz, 2021 IBM Software for SAP Solutions Yaro Dunchych, Peter Bahrs, Khirallah Birkler, Bernd Eberhardt, Navneet Goyal, James Hunter, Derek Jennings, Joe Kaczmarek, Michel Laaroussi, Michael Love, Stefan Momma, Nick Norris, Martin Oberhofer, Manfred Oevers, Paul Pacholski, Andrew Stalneck, Jörg Stolzenberg, Pierre Valiquette, IBM Redbooks, 2015-09-29 SAP is a market leader in enterprise business application software SAP solutions provide a rich set of composable application modules and configurable functional capabilities that are expected from a comprehensive enterprise business application software suite In most cases companies that adopt SAP software remain heterogeneous enterprises running both SAP and non SAP systems to support their business processes Regardless of the specific scenario in heterogeneous enterprises most SAP implementations must be integrated with a variety of non SAP enterprise systems Portals Messaging infrastructure Business process management BPM tools Enterprise Content Management ECM methods and tools Business analytics BA and business intelligence BI technologies Security Systems of record Systems of engagement The tooling included with SAP software addresses many needs for creating SAP centric environments However the classic approach to implementing SAP functionality generally leaves the business with a rigid solution that is difficult and expensive to change and enhance When SAP software is used in a large heterogeneous enterprise environment SAP clients face the dilemma of selecting the correct set of tools and platforms to implement SAP functionality and to integrate the SAP solutions with non SAP systems This IBM Redbooks publication explains the value of integrating IBM software with SAP solutions It describes how to enhance and extend pre built capabilities in SAP software

with best in class IBM enterprise software enabling clients to maximize return on investment ROI in their SAP investment and achieve a balanced enterprise architecture approach This book describes IBM Reference Architecture for SAP a prescriptive blueprint for using IBM software in SAP solutions The reference architecture is focused on defining the use of IBM software with SAP and is not intended to address the internal aspects of SAP components The chapters of this book provide a specific reference architecture for many of the architectural domains that are each important for a large enterprise to establish common strategy efficiency and balance The majority of the most important architectural domain topics such as integration process optimization master data management mobile access Enterprise Content Management business intelligence DevOps security systems monitoring and so on are covered in the book However there are several other architectural domains which are not included in the book This is not to imply that these other architectural domains are not important or are less important or that IBM does not offer a solution to address them It is only reflective of time constraints available resources and the complexity of assembling a book on an extremely broad topic Although more content could have been added the authors feel confident that the scope of architectural material that has been included should provide organizations with a fantastic head start in defining their own enterprise reference architecture for many of the important architectural domains and it is hoped that this book provides great value to those reading it This IBM Redbooks publication is targeted to the following audiences Client decision makers and solution architects leading enterprise transformation projects and wanting to gain further insight so that they can benefit from the integration of IBM software in large scale SAP projects IT architects and consultants integrating IBM technology with SAP solutions
