Love In The Western World Denis De Rougemont:

Love in the Western World Denis De Rougemont, 1983-08-21 In this classic work often described as *The History of the Rise Decline and Fall of the Love Affair* Denis de Rougemont explores the psychology of love from the legend of Tristan and Isolde to Hollywood At the heart of his ever relevant inquiry is the inescapable conflict in the West between marriage and passion the first associated with social and religious responsibility and the second with anarchic unappeasable love as celebrated by the troubadours of medieval Provence These early poets according to de Rougemont spoke the words of an Eros centered theology and it was through this heresy that a European vocabulary of mysticism flourished and that Western literature took on a new direction Bringing together historical religious philosophical and cultural dimensions the author traces the evolution of Western romantic love from its literary beginnings as an awe inspiring secret to its commercialization in the cinema He seeks to restore the myth of love to its original integrity and concludes with a philosophical perspective on modern marriage

Tristan and Isolde Joan Tasker Grimbert, 2013-08-21 A substantial introduction traces the Tristan and Isolde legend from the twelfth century to the present emphasizing literary versions but also surveying the legend's sources and its appearance in the visual arts music and film The nineteen essays are a mix of new new English revised and classic It contains an extensive bibliography

Jahrhundert Albrecht Classen, 2005 *Catholic Modernism and the Irish "Avant-Garde:" The Achievement of Brian Coffey, Denis Devlin, and Thomas MacGreevey* James Matthew Wilson, 2023-09-12 This study constitutes the first ever definitive account of the life and work of Irish modernist poets Thomas MacGreevey Brian Coffey and Denis Devlin Apprenticed to the likes of W B Yeats T S Eliot James Joyce and Samuel Beckett all three writers worked at the center of modernist letters in England France and the United States but did so from a distinctive perspective All three writers wrote with a deep commitment to the intellectual life of Catholicism and saw the new movement in the arts as making possible for the first time a rich sacramental expression of the divine beauty in aesthetic form MacGreevey spent his life trying to voice the Augustinian vision he found in *The City of God* Coffey a student of neo Thomist philosopher Jacques Maritain married scholastic thought and a densely wrought poetics to give form and solution to the alienation of modern life Devlin contemplated the world with the eyes of Montaigne and the heart of Pascal as he searched for a poetry that could realize the divine presence in the experience of the modern person Taken together MacGreevey Coffey and Devlin exemplify the modern Catholic intellectual seeking to engage the modern world on its own terms while drawing the age toward fulfillment within the mystery and splendor of the Church They stand apart from their Irish contemporaries for their religious seriousness and cosmopolitan openness of European modernism They lay bare the theological potencies of modern art and do so with a sophistication and insight distinctive to themselves Although MacGreevey Coffey and Devlin have received considerable critical attention in the past this is the first book to study their work comprehensively from MacGreevey's early poems and essays on Joyce and Eliot

to Coffey's essays in the neo scholastic philosophy of science and on to Devlin's late poetic attempts to realize Dante's divine vision in a Europe shattered by war and modern doubt

thought Rife with contradictions Machiavelli's writings have led commentators to characterize him as everything from a civic republican to a proto fascist Acknowledging these contradictions Pitkin shows that they reflect three distinct ways of thinking about politics each of which is tied to a different understanding of manhood In a new Afterword Pitkin discusses the book's critical reception and situates its arguments in the context of recent interpretations of Machiavelli's thought Jacket **D.H. Lawrence**, 2005-01-01 The dominant view of D H Lawrence's work has long been that of F R Leavis who confined Lawrence within an exclusively ethical and artistic tradition In D H Lawrence The Utopian Vision Eugene Goodheart widens the context in which Lawrence should be understood to include European as well as English writers Blake Nietzsche Rilke and Freud among others Goodheart shows that the characteristic impulse of Lawrence's principal discovery was the bodily or physical life that he believed man had once possessed in his pre civilized past and must now fully recover if future civilized life is possible Goodheart's argument fully engages the paradoxes of Lawrence's writing He is at once the last great representative of the moral tradition of the English novel and of the English Protestant imagination and a novelist without precedent a diabolist in the service of the dark gods He rejects the claims of society while simultaneously lamenting the thwarting of the societal instinct The oppositions and paradoxes in the work are the expression of a single not always coherent revolutionary imagination D H Lawrence The Utopian Vision provides a rigorous and critical analysis of the ideological character of Lawrence's novels and essays in particular the effect of his utopianism on his views of nature myth and religious experience while responding to his aesthetic achievement Goodheart's Lawrence is a prophetic artist whose vision is at once inspiring and dangerous In the new introduction to the book Goodheart reflects upon the vicissitudes of Lawrence's reputation since the sixties when the book first appeared and his relevance to the concerns of our own time Gothicka Victoria Nelson, 2012-04-23 The Gothic has taken a revolutionary turn in this century Today's Gothic has fashioned its monsters and devils into heroes and angels and is actively reviving supernaturalism in popular culture Nelson argues that this mainstreaming of a spiritually driven supernaturalism is a harbinger of what a post Christian religion in America might look like **From Plato to NATO** David Gress, 2010-05-11 An in depth intellectual history of the Western idea and a passionate defense of its importance to America's future From Plato to NATO is the first book to make sense of the legacy of the West at a time when it is facing its greatest challenges Readers of Francis Fukuyama John Gray Samuel Huntington and other analysts of the dilemmas of Western nations in the twenty first century will find in David Gress's original account a fuller description of what the West really is and how with the best of intentions it has been misrepresented Most important they will encounter a new vision of Western identity and how it can be recovered Early in the twentieth century American educators put together a story of Western civilization its origins history and promise that for the subsequent fifty years remained at the heart of American college education The story they told was of a Western civilization that began with the Greeks and continued through 2 500 years of great books and great ideas culminating in twentieth century progressive

liberal democracy science and capitalist prosperity In the 1960s this Grand Narrative of the West came under attack Over the next thirty years the critics turned this old story into its opposite a series of anti narratives about the evils the failures and the betrayals of justice that so they said constituted Western history The victory of Western values at the end of the cold war the spread of democracy and capitalism and the worldwide impact of American popular culture have not revived the Grand Narrative in the European and American heartlands of the West David Gress explains this paradox arguing that the Grand Narrative of the West was flawed from the beginning that the West did not begin in Greece and that in morality and religion the Greeks were an alien civilization whose contribution was mediated through Rome and Christianity Furthermore in assuming a continuity from the Greeks to modern liberalism we have mistakenly downplayed or rejected everything in between focusing on the great ideas and the great books rather than on real history with all its ambiguities conflicts and contradictions The heart of Gress s case for the future of the West is that the New must remember its roots in the Old and seek a synthesis For as the attacks have demonstrated the New West cannot stand alone Its very virtues liberty reason progress grew out of the Old West and cannot flourish when removed from that rich soil

Uses of Comparative

Mythology Kenneth L. Golden, 2021-04-14 This collection first published in 1992 offers critical interpretive essays on various aspects of the work of Joseph Campbell 1904 1987 one of a very few international experts on myth Joseph Campbell examines myths and mythologies from a comparative point of view and he stresses those similarities among myths the world over as they suggest an existing transcendent unity of all humankind His interpretations foster an openness even a generous appreciation of all myths and he attempts to generate a broad sympathetic understanding of the role of these stories in human history in our present day lives and in the possibilities of our future

Passionate Subjects/split Subjects in

Twentieth-century Literature in Chile Bernardita Llanos M., 2009 Throughout the literary imaginaries of the twentieth century there is a reiteration of an authoritarian patriarchal pattern that permeates the social arena as well as the female subject revealing the contradictions of the Chilean modernity modernization process The nation appears invariably determined by semi feudal and semi modern structures as well as split female modern subjects Noticing this has led the author to write this book and investigate specifically the ways the discourse of modernity conflicts with the marriage contract in the construction of feminine subjectivity Marriage is one of the modern protocols that resolve sexual difference through a pact that proclaims male protection in exchange for female obedience Subordination of difference becomes the overarching feature guiding an incomplete modernity and its attainment in a hierarchical society

Love As Human Freedom Paul A. Kottman,2017-05-30 Rather than see love as a natural form of affection Love As Human Freedom sees love as a practice that changes over time through which new social realities are brought into being Love brings about and helps us to explain immense social historical shifts from the rise of feminism and the emergence of bourgeois family life to the struggles for abortion rights and birth control and the erosion of a gender based division of labor Drawing on Hegel Paul A Kottman argues that love generates and explains expanded possibilities for freely lived lives Through keen interpretations of the best known philosophical and literary depictions of its topic including Shakespeare Plato Nietzsche Ovid Flaubert and Tolstoy his book treats love as a fundamental way that we humans make sense of temporal change especially the inevitability of death and the propagation of life **Love's Wounds** Cynthia N. Nazarian,2017-01-10

Love s Wounds takes an in depth look at the widespread language of violence and abjection in early modern European love poetry Beginning in fourteenth century Italy this book shows how Petrarch established a pattern of inequality between suffering poet and exalted Beloved rooted in political patriarchy Sixteenth and early seventeenth century French and English poets reshaped his model into an idiom of extravagant brutality coded to their own historical circumstances Cynthia N Nazarian argues that these poets exaggerated the posture of the downtrodden lover adapting the rhetoric of powerless desire to forge a new countersovereignty from within the heart of vulnerability a potentially revolutionary position through which to challenge cultural religious and political authority Creating a secular equivalent to the martyr early modern sonneteers crafted a voice that was both critical and unstoppable because it suffered Love s Wounds tracks the development of the

countersovereign voice from Francesco Petrarca to Maurice Scève Joachim du Bellay Thodore Agrippa d'Aubign Edmund Spenser and William Shakespeare Through interdisciplinary and transnational analyses Nazarian reads early modern sonnets as sites of contestation and collaboration and rewrites the relationship between early modern literary forms
