Most textbooks are aimed at the beginner in the machining trade and cover basic work practice admirably. What textbooks do not do is sit you down with a veteran of the trade who can fill you in on the tips and tricks that allow working faster accurately and intelligently. What amazed me is that how all these tips are not recycled versions of the ones we are all familiar with as published by Lindsay's books and others but are new tips all useful and pertinent to the tools and methods of today.
