Tutankhamun and Carter Rogerio Sousa, Gabriele Pieke, Tine Bagh, 2024-08-15 First scholarly multi disciplinary re assessment of Howard Carter's discovery and excavation of Tutankhamun's tomb and the impact of the find on our understanding of the material culture of Ancient Egypt The discovery of the tomb of Tutankhamun in 1922 stands out as one of the most important finds of modern archaeology revealing an enormous wealth of objects encapsulating techniques vestiges of uses and re uses of materials as well as unrivalled clues regarding the complex set of beliefs associated with the pharaonic funerary material culture Once cleared from the tomb these objects have captivated the world with their irresistible charm and beauty ending up playing a role in contemporary popular culture However it seems that such

magnetism rather hindered than facilitated the scholarly study of the find One hundred years after the discovery of this magnificent tomb most of its objects remain insufficiently studied to this day This volume aims to show how it remains challenging to study Tutankhamun s objects gathering a collection of studies authored by leading scholars on conservation materials funerary beliefs as well as the reception of motifs and the impact of the discovery Through these studies it becomes clear how ancient objects can help us reconstruct the complex fabric of the ancient Egyptian society and how they keep interacting with modern audiences     *Marine Fisheries Review* ,1988     **Trends in Urbanisation and Urban Policies in OECD Countries What Lessons for China?** OECD,China Development Research Foundation,2010-08-27 This report presents an overview of trends in urban policies in OECD countries with the objective to identify successes and failure that could inform national Chinese policy makers in their preparation of an Urbanisation Strategy     *Directory of Pension Funds and Their Investment Managers* ,2006     **The Directory of Directors** ,1997     **The British National Bibliography** Arthur James Wells,1992
