**Aus der Werkstatt der Demokratie** Arundhati

Roy, 2010-03-26 Arundhati Roy ist eine der faszinierendsten Romanautorinnen Indiens und eine seiner mutigsten Frauen. Unbeirrt und mit Verve führt sie uns vor Augen, wie es unter der glänzenden Oberfläche des Subkontinents wirklich aussieht: fernab mystischer Verklärung und den bunten Lichtern Bollywoods. Mit leidenschaftlicher Berzeugung gründlicher politischer Analyse und einer wunderbar poetischen Sprache spricht sie in ihren Essays über religiöse und politische Ausgrenzung, über kulturelle wie wirtschaftliche Missstände. Könnte sie sich den aktuellen Ereignissen der letzten Jahre wie dem Pogrom gegen die Muslime in Gujarat 2002 oder den gewalttätigen Ausschreitungen in Mumbai 2008 **Der allmächtige**

The

Fundamentals of Physical Surveillance (3rd Ed.) Raymond P. Siljander, Darin D. Fredrickson, 2016-08-01 This updated and expanded new edition is a significant revision of the second edition presented 14 years previous. This edition provides the most current information about surveillance methods supporting photographic equipment and vision enhancing products. Although physical surveillance remains an intuitive art regarding the secret visual observation of a person's activity or location, important new science and technology improved the tools, and with that came enriched tradecraft. Physical surveillance may be urban or rural, stationary or mobile, foot or vehicular, or occur on public transportation. In fact, one surveillance operation can feature several or all of them. This edition presents the latest methods which investigators continually adapt to the immediate circumstances. Updated chapters include Surveillance Applications, Vehicular Surveillance, Stationary Surveillance, Undercover Surveillance, Vision and Aids for Vision Extension and Enhancement, Surveillance Photography, Tips for the Surveillant, and Report Writing. In addition, the text is richly illustrated with important and helpful examples. Because physical surveillance precedes virtually all organized criminal and terrorist attacks, security personnel need the capacity to detect surveillance and that requires truly understanding it. Written in a style that professional investigators prefer, the information is presented quickly, decisively, and to the point. Whether the reader is a novice or veteran investigator in law enforcement or civil investigation, this unique book offers a complete, cohesive, and expert text on the subject of physical surveillance. It represents the most current and authoritative resource available. *Terror Funds in India* Dr V Balasubramanian, Dr SV Raghavan, 2017-07-21

*Intelligence Services in South Asia* Ryan Shaffer, ASM Ali Ashraf, 2025-02-18 This book explores colonial and post colonial intelligence services in South Asia. It traces the genealogy of the institutions to analyze changes and continuities throughout the region. The volume also provides a framework for analyzing how intelligence services developed in these countries by looking at both internal and external issues and shows how vital and sometimes interconnected these issues are for understanding intelligence in South Asia. It demonstrates how some countries and intelligence services borrowed from the colonial era and others started new institutions to protect national security in

response to the shifting demands of the Cold War and post Cold War era Bringing together a group of international scholars the anthology delves into the intelligence services of Afghanistan Bangladesh Bhutan India the Maldives Myanmar Nepal Pakistan and Sri Lanka and traces how these national services developed in similar and diverse ways This book will be of much interest to students of intelligence studies Asian politics security studies and International Relations *Soft Target* Zuhair Kashmeri, Brian McAndrew, 2005-09-06 A provocative look at one of Canada's biggest tragedies On March 16 2005 almost twenty years after one of the biggest mass murders in Canadian Aviation history the Air India Case concluded with a verdict that authors Zuhair Kashmeri and Brian McAndrew predicted sixteen years ago when *Soft Target* was first published not guilty In this second edition the two offer a detailed foreword that brings readers up to date with some startling new information surrounding the twin bombings on June 23 1985 in the air over the Atlantic and on the ground in Japan which left 331 people dead They offer key details from the trial of Ripudaman Singh Malik and Ajaib Singh Bagri that took place in a specially built Vancouver courtroom leads that were not followed up and more details of India's intelligence service's clandestine interference in Canada They explain how their own prediction that justice would not be found because of a botched investigation came true and that only a public inquiry will offer closure to the families of the victims **Hubris, Self-Interest, and America's Failed War in Afghanistan** Thomas P. Cavanna, 2015-07-22 This book describes the conduct of the US led post 9/11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition's inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan's inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration scale and cost America's leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines

they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough      Train to India Maloy Krishna Dhar,2009-10-09 FROM THE AUTHOR OF OPEN SECRETS THE UNTOLD STORY OF THE HUMAN TRAGEDY IN BENGAL BEFORE DURING AND AFTER PARTITION Maloy and his mother board the Dacca Sylhet Express from Bhairab in 1950 The young boy notices a tick mark in white chalk on the side of the carriage a sign that worries him The train enters the Anderson Bridge and a blob of fresh blood hits Maloy s face Bodies roll down to the river As a young boy Maloy Krishna Dhar made the perilous journey to India from the East Pakistan Politics had taken a communal colour in this region age old bonds between Hindi and Muslim Bengalis had deteriorated The situation was made worse by near famine conditions and the brutal suppression of unrest Villages were torched marauding attackers had a free hand and trains became charnel houses on wheels The partition in Bengal had its share of tragedy of lives unmade and lost but it is relatively less chronicled than events in Punjab Maloy Krishna Dhar s *Train to India* is a graphic and moving account of that turbulent and unforgotten era of Bengal History

**My Enemy's Enemy** Avinash Paliwal, 2017 The archetype of my enemy's enemy is my friend India's political and economic presence in Afghanistan is often viewed as a Machiavellian ploy aimed against Pakistan Challenging deeply held beliefs about an India Pakistan proxy war this work offers a nuanced explanation of India's strategic intent and actions which is critical to resolving the seemingly unending war in Afghanistan as well as wider bilateral disputes between the two South Asian rivals

**In the Public's Interest** Gautam Bhan, 2016-11-15 This book studies the recent legacy of basti evictions in Delhi mass clearings of some of the city's poorest neighborhoods as a way to understand how the urban poor are disenfranchised in the name of public interest and in the case of Delhi by the very courts meant to empower and protect them Studying bastis says Gautam Bhan provokes six clear lines of inquiry applicable to studies of urbanism across the global south The first is the long standing debate over urban informality and illegality the debate's impact on conceptions and practices of urban planning the production of space and the regulation of value The second is a set of debates on good governance read through their intersections with ideas of planned development within rapidly transforming cities The third is the political field of urban citizenship and the possibilities of substantive rights and belonging in the city The fourth is resistance and the ability of a city's subaltern residents to struggle against exclusion The two remaining inquiries both cut across and unify the first four One of these is the role of the judiciary and the relationships between law and urbanism in cities of the global south The other is the relationship between democracy and inequality in the city What emerges about Delhi in particular are a set of new modes for the reproduction of inequality When rights are lost citizenship is unequal and differentiated the promise of development is refused and poverty and inequality are reproduced and deepened The task at hand says Bhan is not just to explain evictions but also to listen to what they are telling us about the city that is as well as the city that can be

**Long March of Islam** R. K. Ohri, 2004 Long march of Islam is a reality The rising crescendo of Jihadi warriors footfalls can be heard across India and many other countries Religion based faultline conflicts are growing globally These are turbo driven by the exceptionally high rise in Muslims population both in Islamic and non Islamic countries This book is about tomorrow and the day after an alert about mankind's future imperfect By 2025 Muslims will comprise 30 percent of the world population That could destabilize many countries and regions because Islam is a conquest

oriented religion Indian sub continent is likely to be one of the conflict zones As envisioned by Pakistan s ideologue Allama Iqbal the Islamists hope to restore the lost grandeur of Islam on the strength of sharply rising numbers and the time tested strategy of Jihad The author has analysed Pakistan s role in the long march of Islam and identified the regions likely to be worst affected

**Indian Power Projection** Shashank Joshi,2017-07-14 India is growing into one of Asia s most important military powers Its defence budget has more than doubled in the past decade and it imports more arms than anyone else in the world But India is still seen as a land power focused on long disputed and militarised borders with Pakistan and China rather than the global military force it was in the first half of the twentieth century under British rule Is this changing India is acquiring increasing numbers of key platforms aircraft carriers amphibious ships refuelling tankers and transport aircraft that are extending its reach to the Indian Ocean littoral and beyond But most accounts of this build up have been impressionistic and partial Indian Power Projection assesses the strength reach and purposes of India s maturing capabilities It offers a systematic assessment of India s ability to conduct long range airstrikes from land and sea transport and convey airborne and amphibious forces and develop the institutional and material enablers that turn platforms into capabilities It draws extensively on the lessons of modern expeditionary operations and considers how India s growing interests might shape where and how it uses these evolving capabilities in the future This study finds that Indian power projection is in a nascent stage limited in number primarily of use against much weaker adversaries and deficient in some key supporting capabilities India s defence posture will continue to be shaped by local threats rather than distant interests Indian leaders remain uncomfortable with talk of military intervention and expeditionary warfare associating these with colonial and superpower excess But as the country s power interests and capabilities all grow it is likely that India will once more find itself using military force beyond its land borders
