Pedagogy and Praxis in the Age of Empire Peter McLaren, Nathalia Jaramillo, 2007-01-01 ONE OF THE FIRST EDUCATIONAL BOOKS TO CHALLENGE THE BUSH REGIME s WAR ON TERROR ITS EDUCATIONAL POLICY ITS FOREIGN POLICY AND ITS ASSAULT ON THE POOR Written by two leading international exponents of critical pedagogy this book is a pioneering attempt to create a Marxist humanist and feminist pedagogy for the new century Critical pedagogy is discussed as an important revolutionary act in bringing about a socialist future In their conclusion McLaren and Jaramillo cite an observation made by Arundhati Roy 2004 who insists that there is no discussion taking place in the world today that is more crucial than the debate about strategies of resistance p 195 McLaren and Jaramillo have clearly contributed to such a conversation with Pedagogy and Praxis in the Age of Empire and their work must be understood as a relevant component in that ongoing dialogue Moreover they have been courageous enough to remind us following Roy that if we believe democracy should be something more than the free world s whore something more than Empire s euphemism for neoliberal capitalism Roy 2004 p 54 56 we can no longer afford to remain indifferent to the horror and savagery unleashed by capitalism s barbaric machinations We believe that McLaren and Jaramillo have introduced in PPAE an important and highly productive framework that can help lay the groundwork for expanding human relationships with nature or for beginning to ask

The Cure for Catastrophe Robert Muir-Wood, 2016-09-06 We can't stop natural disasters but we can stop them being disastrous One of the world's foremost risk experts tells us how Year after year floods wreck people's homes and livelihoods earthquakes tear communities apart and tornadoes uproot whole towns Natural disasters cause destruction and despair But does it have to be this way In *The Cure for Catastrophe* global risk expert Robert Muir Wood argues that our natural disasters are in fact human ones We build in the wrong places and in the wrong way putting brick buildings in earthquake country timber ones in fire zones and coastal cities in the paths of hurricanes We then blindly trust our flood

walls and disaster preparations and when they fail catastrophes become even more deadly No society is immune to the twin dangers of complacency and heedless development Recognizing how disasters are manufactured gives us the power to act From the Great Lisbon Earthquake of 1755 to Hurricane Katrina *The Cure for Catastrophe* recounts the ingenious ways in which people have fought back against disaster Muir Wood shows the power and promise of new predictive technologies and envisions a future where information and action come together to end the pain and destruction wrought by natural catastrophes The decisions we make now can save millions of lives in the future Buzzing with political plots newfound technologies and stories of surprising resilience *The Cure for Catastrophe* will revolutionize the way we conceive of catastrophes though natural disasters are inevitable the death and destruction are optional As we brace ourselves for deadlier cataclysms the cure for catastrophe is in our hands *Adrienne Rich's Later Poetry* Alec Marsh, 2024-12-12 Reorienting understandings of Adrienne Rich's later work through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich's political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich's interest in Marx there is no in depth treatment of the effect of Marx's humanistic philosophy on Rich's later work or even on her unwavering but altered dedication to Women's Liberation This book fills this gap showing how Rich's discovery of Marx's humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of political engagement through poetry **Sea of Storms** Stuart B. Schwartz, 2016-07-26 A panoramic social history of hurricanes in the Caribbean The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy commerce or the legacy of colonial rule In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region's history from the rise of plantations to slavery and its abolition to migrations racial conflict and war Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina Schwartz looks at the ethical political and economic challenges that hurricanes posed to the Caribbean's indigenous populations and the different European peoples who ventured to the New World to exploit its riches He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region's governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals Schwartz sheds light on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas *Sea of Storms* emphasizes the continuing role of race social inequality and economic ideology in the shaping of our responses to
