**Handbook of Research on International Business and Models for Global Purpose-Driven Companies** Perez-Uribe, Rafael Ignacio, Largacha-Martinez, Carlos, Ocampo-Guzman, David, 2020-11-20. International businesses struggle to be competitive and influential at the global market level. With the new ideas in the management and leadership disciplines, hard skills are losing or are believed to be losing their strategic relevance, while soft skills are praised and highly sought after. The Handbook of Research on International Business and Models for Global Purpose-Driven Companies, a pivotal reference source, provides vital research on international business management strategies and applications within internal organizations that allow companies to strategically position themselves for increased success in the global economy. While highlighting topics such as organizational culture, internal communication, and generational workforce, this publication explores leadership disciplines as well as the methods of handling multicultural organizations. This book is ideally designed for entrepreneurs, executives, managers, business professionals, human resource officials, researchers, academicians, and students.

**Research Methodology in Management and Industrial Engineering** Carolina Machado, J. Paulo Davim, 2020-03-13. This book deals with methodological issues in the field of management and industrial engineering. It aims to answer the following questions that researchers face every time they look to develop their research: How can we design a research project? What kind of paradigm should we follow? Should we develop a qualitative phenomenological research or a quantitative positivistic one? What techniques for data collections can we use? Should we use the entire population or a sample? What kind of sampling techniques can we have? This book provides discussion and the exchange of information on principles, strategies, models, techniques, applications, and methodological options possible to develop in research in management and industrial engineering. It communicates the latest developments and thinking on the research methodologies subject in the different areas worldwide. It seeks cultural and geographic diversity in studies, highlighting research methodologies that can be used in these different study areas. This book has a special interest in research on important issues that transcend the boundaries of single academic subjects. It presents contributions that challenge the paradigms and assumptions of individual disciplines or functions with chapters grounded in conceptual and/or empirical literature. The main aim of this book is to provide a channel of communication to disseminate knowledge between academics and researchers with a special focus on the management and industrial engineering fields. This book can serve as a useful reference for academics, researchers, managers, engineers.

and other professionals in related matters with research methodologies Contributors have identified the theoretical and practical implications of their methodological options to the development and improvement of their different study and research areas
