This is a companion version not the original book Sample Book Insights 1 The Hijaz is a dry mountainous landscape in the western part of the Arabian Peninsula It was here that a new movement emerged in the early 600s one that would change the course of history in the Arabian Peninsula and beyond 2 The Arabian Peninsula is a landmass in southwestern Asia that has been largely ignored by outsiders Its dry climate is barely hospitable even for the nomads who live there Parched riverbeds run throughout the land but they are hardly recognizable as rivers 3 The Arab s life was based around the harsh environment in which they lived Due to the desert s inability to support settled civilization the Arabs were constantly on the move in search of fertile land for their flocks 4 The pre Islamic Arabs were almost exclusively polytheistic The Arabs believed in the God of Ibrahim and Isma il but they believed he was one among many different gods They carved idols to represent his attributes

Insight Turkey / Spring 2021 - Resurge Of Anti-Islam Activity Worldwide ,2021-06-01 Although most European countries deny the existence of anti Islam and anti Muslim sentiment the evidence on the ground demonstrates that racism and hate crimes against Muslims have become widespread and begun to normalize throughout Europe Every passing day racist xenophobic and anti Islam tendencies are further entrenched in European societies and institutions The main concern about the most recent wave of anti Islam is the fact that the mainstream political parties have begun to accept anti Islam as a normal position and to use political discourses of ultranationalist and xenophobic political actors Many Western governments have begun to introduce new laws normalizing anti Islam outlooks in their countries When hostility becomes commonplace and discrimination is internalized all political codes are written accordingly laws are interpreted similarly and social perceptions are shaped in the same mould The process has come to such a point that victimized Muslims are even afraid of complaining about the attacks committed against them According to a survey published by the EU Agency for Fundamental Rights only 12 percent of Muslims report anti Muslim discrimination cases to officials That is the available data and numbers which are already alarming are only the tip of the iceberg Based upon the above explanations it can be claimed that the anti Islam trend is largely a Western product and that the Western political actors are largely responsible for the resurge of anti Islam activity in the world To put a stop to this situation European countries and EU institutions such as the European Parliament need to recognize anti Islam attitudes as a form of racism European actors should fight against all kinds of discrimination racism hate crimes and human rights violations as they fight against anti Semitism The EU should initiate a de radicalization program in order to re establish a multicultural Europe Europe should not surrender to far right or far left terrorists otherwise it will continue to lose its moral superiority Moreover unless Europeans take necessary measures against anti Islam European states are destined to lose rationality in their policies This wicked process is similar to a double edged sword that cuts Muslims and non Muslim Europeans as well Lastly in this issue I would like to draw attention to the concept

of anti Islam which I believe is a better concept to use instead of Islamophobia considering that anti Islam is a more political concept compared with the latter. The Western and non Western perception of Islam is totally political. Countries that have large Muslim minorities consider the spread of Islam and the increase of Muslims as a threat to their political projects and their way of life. Anti Islam similar to any political perspective that targets all members of a religion or ethnicity is a form of racism. With these said, the current issue of Insight Turkey brings to its readers four commentaries and six research articles covering anti Islam practices worldwide while focusing on different dimensions of these activities. As Muslim communities have been racialized as the Other for decades, James Carr provides a comprehensive analysis on how contemporary neoliberal civilizing missions operate at different levels to create neoliberal citizens while penalizing Muslims that refuse to participate. In Europe, particularly, Marcelo Macedo Rizo asserts that the depiction of Islam and Muslims has also been dominated by an Othering. He proposes the application of a democratic Alterity to overcome the existing harmful European vision towards Muslims. The impact of far right parties' activities and the governmental politics of fear in general have resulted in different realities that allowed anti Muslim hatred and actions to increase. Within this perspective, Farid Hafez explains how the introduction of the notion of political Islam by the Austrian People's Party came to the criminalization of vocal and/or organized Muslims. Meanwhile, in Italy, there is a lack of acknowledgment of Islam and Muslims by the Italian state. Domenico Altomonte argues that anti Muslim hatred in Italy allows its citizens to conceive an exclusionary populist discourse and a shared negative view that impedes the enforcement of the right to religious freedom. Furthermore, Chris Allen analyzes the existence of anti Islam activities in the United Kingdom. From a feminist perspective, Merref Yard m and Ali H seyino lu analyze anti veil and anti burqa laws in France by focusing on their historical and social foundations. However, anti Islam is not only limited to Europe. As CJ Werleman asserts, the rising violence against Muslims in India has brought Muslims to the brink of genocide in India and Kashmir. As mentioned previously, anti Islam is mainly politically constructed. This can be understood better when taking into consideration Kristin VandenBelt's research which compares the experience of Muslims in Europe and Latin America, Denmark and Argentina respectively. Media is another actor which augments anti Islam activities and discourse. Within this perspective, Ali Murat Yel's research article brings attention to Turkish media representation of Islam and its impact on the social antagonization. Furthermore, Sahar Khamis' commentary focuses on the social media and concludes with a few thoughts on what needs to be done to ensure the success and continuation of efforts to counter Islamophobia. Besides the pieces that cover the resurgence of anti Islam worldwide, this issue also includes a number of articles that discuss some important issues. Burhanettin Duran, on the tenth anniversary of the Arab Uprising, provides a general framework of the developments in the region. Elmar Mustafayev looks at the stance of France on the Second Karabakh war between Armenia and Azerbaijan from the angle of the norms and values of the EU. Migration has been the subject of the political developments in Europe lately. Within this context, brahim rdem and Yavor Raychev examine the use of

coercive engineered migration as a hybrid threat during the 2015 EU refugee crisis Lastly Burak K rk in his article questions the state sponsoring of the terrorist operations of the Armenian Secret Army for the Liberation of Armenia and the Justice Commandos of the Armenian Genocide At a time when anti Islam activities are resurging and the Muslim voices are kept down this issue of Insight Turkey aims to present and to provide the verity to its readers through an extensive and rich framing of the ongoing anti Islam practices worldwide We hope that this issue contributes to increase awareness about anti Islam activities in today s world

Muslim Perspectives on Islamophobia Zouhir Gabssi,2024-08-06 The Islamic positioning of Islamophobia is presented in this book Through Islamic or Muslim perspectives the book engages with various Islamic texts and discourses spoken and written emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of convergence and divergence between the internal Muslim and external Western perspectives and then by providing new approaches to curbing Islamophobia through a holistic spiritual dimension of Islam and cultural memory The book contends that the bridges of understanding between the East and the West can only be built if some of Islam s theological concepts such as the place of reason in Islam are reinterpreted by considering the Islamic perspectives While the book acknowledges previous work on Islamophobia it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia Readers interested in Islamic studies and anti racism narratives would find this book s eclectic approach and balanced perspective of the phenomenon informative and enlightening
