*Feedback that Sticks* Karen Spangenberg Postal , PhD., ABPP-CN,Kira Armstrong,2013-01-15 This book is about how to give outstanding feedback to patients their family members and other professionals Effective feedback sessions have the potential to help patients understand their neurocognitive syndromes in the larger context of their real world environments and in a manner that positively alters lives As our

profession has matured feedback sessions with patients and family members have become the norm rather than the exception Nonetheless many senior and even mid career neuropsychologists were never explicitly taught how to give feedback And despite the burgeoning neuropsychological literature describing sophisticated assessment methods and neuropsychological syndromes there has been almost no parallel literature describing techniques for communicating this information to patients and other professionals This begs the question how have we learned to do this extraordinary task well And how do we effectively communicate intrinsically complex assessment results to deliver the type of salient feedback that alters lives It turns out the answers are like feedback sessions themselves varied and complex Feedback that Sticks presents a compilation of the clinical feedback strategies of over 85 neuropsychologists from all over the country training directors members of tertiary medical teams and private practitioners It offers the reader the ability to be a fly on the wall as these seasoned neuropsychologists share feedback strategies they use with patients across the lifespan and who present with a wide variety of neurological and developmental conditions Like receiving the best feedback training from 85 different mentors the book gathers the most compelling accessible ways of explaining complex neuropsychological concepts from a broad variety of practitioners Through this process it offers a unique opportunity for practicing neuropsychologists to develop broaden and strengthen their own approaches to feedback
