Maidens Meal And Money Capitalism And The Domestic Community:

Maidens, Meal, and Money, 1991 *Maidens, Meal and Money* Claude Meillassoux, 1984 Kindheitsgeschichte
Martina Winkler, 2017-07-17 In ihrer Einführung in die Kindheitsgeschichte bietet Martina Winkler einen systematischen Überblick zu den faszinierenden Fragen und Perspektiven der historischen Kindheitsforschung. Inspiriert von verschiedenen Disziplinen wie der Literaturwissenschaft, der Soziologie und der Erziehungswissenschaft, analysiert die Kindheitsgeschichte historische Veränderungen, denen wie Kindheit gedacht, gelebt, geregelt und dargestellt wurde. Sie nimmt damit die historischen Wurzeln aktueller Erziehungsideale und Kindheitsbilder in den Blick, fragt aber auch nach grundlegenden Brüchen und beschreibt oft Vorstellungen, die heutigen Selbstverständlichkeiten fundamental widersprechen. Die häufig zitierte Annahme, Kindheit sei eine Erfindung der Moderne, während Kinder im Mittelalter schlicht kleine Erwachsene waren, erweist sich dabei nicht als falsch, aber doch als zu wenig differenziert. Kindheit ist ein soziales und kulturelles Konstrukt, abhängig von sozialen Notwendigkeiten, politischen Ideologien und moralischen Werten. Als ein solches Konstrukt bildet Kindheit ein grundlegendes Element zur Strukturierung von Gesellschaften und einen spannenden, faszinierenden Spiegel für das Verständnis heutiger wie vergangener sozialer Ordnungen. Die Auseinandersetzung mit der Geschichte der Kindheit gehört zu den intellektuell und nicht selten auch emotional herausforderndsten Bereichen aktueller Forschung. Das Buch bietet Studierenden, Forschern und der interessierten Öffentlichkeit eine Einführung in Thematik, Fragestellungen und Forschungskontroversen und eröffnet so Perspektiven für die selbständige Arbeit am Thema. **"Das Kapital" im Osten**
Achin Chakrabarty, Anjan Chakrabarti, Byasdeb Dasgupta, Samita Sen, 2024-05-16 Dieses Buch verfolgt einen marxistischen Ansatz mit dem Schwerpunkt auf der Klasse, um über Marx' Kapital im Kontext des Ostens nachzudenken. Es nimmt eine kritische Neubewertung einiger vertrauter Konzepte im Kapital vor und arbeitet Themen heraus, die an dessen Rand liegen. In verschiedenen Aufsätzen wird dieses Grenzgebiet erkundet, um neue Konzepte und Analysemethoden für Marx' Abhandlung im 21. Jahrhundert zu fördern, Jahrhundert voranzutreiben. Damit stellt es einen Fortschritt in der Marxschen Theorie und Politik dar. Das Buch untersucht das Kapital von Marx aus der Perspektive und dem Blickwinkel des Ostens und konzentriert sich auf viele Themen, die an den Grenzen des Kapitals liegen, das sich hauptsächlich mit der Entschlüsselung des entwickelten Kapitalismus befasst. Es werden neue Konzepte eingeführt und in Beziehung zu den von Marx vertretenen gesetzt, um unser Verständnis von Wirtschaft, Kapitalismus, Entwicklung und Politik zu verbessern. In dieser Hinsicht bietet das Buch eine Lesart des Kapitals, die sich von den herkömmlichen Überlegungen in der westlichen Welt unterscheidet. Der Umfang ist groß und deckt einen großen Teil des Gebiets von Marx' Kapital ab, wobei auch einige neue Themen im Zusammenhang mit dem Kapital behandelt werden. Der Inhalt gliedert sich in die folgenden Abschnitte: Rezeption des Kapitals im Osten, Wert, Ware, Mehrwert und Kapitalismus, Bevölkerung und Rente im Kapital und Fragen jenseits des Kapitals. **Körper, Religion und Macht**

Lubkemann, Christopher B. Steiner, Euclides Gonçalves, 2019-02-06 An essential collection of scholarly essays on the anthropology of Africa offering a thorough introduction to the most important topics in this evolving and diverse field of study The study of the cultures of Africa has been central to the methodological and theoretical development of anthropology as a discipline since the late 19th century As the anthropology of Africa has emerged as a distinct field of study anthropologists working in this tradition have strived to build a disciplinary conversation that recognizes the diversity and complexity of modern and ancient African cultures while acknowledging the effects of historical anthropology on the present and future of the field of study A Companion to the Anthropology of Africa is a collection of insightful essays covering the key questions and subjects in the contemporary anthropology of Africa with a key focus on addressing the topics that define the contemporary discipline Written and edited by a team of leading cultural anthropologists it is an ideal introduction to the most important topics in the field both those that have consistently been a part of the critical dialogue and those that have emerged as the central questions of the discipline's future Beginning with essays on the enduring topics in the study of African cultures A Companion to the Anthropology of Africa provides a foundation in the contemporary critical approach to subjects of longstanding interest With these subjects as a groundwork later essays address decolonization the postcolonial experience and questions of modern identity and definition providing representation of the diverse thinking and scholarship in the modern anthropology of Africa Towards an Anthropology of Wealth Theodoros Rakopoulos, Knut Rio, 2020-06-04 Aiming to redefine the concept of wealth which has too often been reduced to merely accumulated assets this book views wealth primarily as a question of reproduction relational flows and life vitality The authors therefore outline wealth as a triangular phenomenon between capital the commons and power Viewing wealth as firstly a product of relational capacities the book explores the processes wherein it is constantly being pulled at from forces that demand appropriation be that finance community or state The chapters tackle perceptions and practices of wealth in the commons in mythical narrative immaterial substance aristocratic orders antimafia money real and imagined and conspiracy theory with contributions from Melanesia Italy Greece India and Mongolia The comparative perspective lies at the heart of the book bringing together instances of commonwealth and the commons as well as hierarchical relational and substantial understandings of wealth As the first collection in recent decades to address the anthropology of wealth openly in a comparative perspective this book will spark discussions of the concept in anthropology not least at the back of a renewed debate over it due to Piketty's legacy This book was originally published as a special issue of History Anthropology **The**

Politics of Relations André Thiemann,2024-06-01 Rethinking the contributions of the Manchester School of Social Anthropology for political ethnography the Politics of Relations elaborates its relational approach to the state along four interlaced axes of research embeddedness boundary work modalities and strategic selectivity that enable thick comparisons across spatio temporal scales of power In Serbia local experiences of self government infrastructure and care motivate its citizens to become the state while cursing it heartily While both officials and citizens strive for a state that enables a normal life they navigate the increasingly illiberal politics enacted by national parties and which are tolerated by trans national donors

Grid-locked African Economic Sovereignty Victor Warikandwa,Artwell Nhemachena,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

Advanced Introduction to Economic Anthropology Peter D. Little,2023-11-03 Expertly navigating the interdisciplinary field of economic anthropology Peter D Little illustrates how an anthropological perspective can deepen understandings of customary and global markets different types of money diversified livelihoods of the poor gendered and racialized labor climate change and other global issues By questioning common dichotomies such as the informal versus formal sectors and customary versus modern institutions the book uncovers those hidden connections power relations and economic actors and processes that underpin real economies throughout the world

Women and Property Renee Hirschon,2023-07-21 First published in 1984 Women and Property studies the idea of wealth and property in relation to women in diverse countries It attempts a definition of the term property itself and goes on to look at the relationships and rights associated with these various kinds of property The authors assess the effects of wider economic forces and State intervention indicating the changing contexts in which these systems are set today In some cases life cycle markers such as marriage divorce and widowhood are critical and in many cases it is the organisation of the household residential patterns and kinship rights which are seen to structure the relationships of women men and property Ideological constructs regarding female sexuality and also those in which women

and children may be conceptualised as objects are considered in detail Surprisingly little attention has been paid to the significance of property as a critical factor affecting the position of women in society and the original papers presented here provide new dimensions for a neglected area of feminist debate This book will be of interest to students of sociology political science law and gender studies
