Television Production in Transition Gillian Doyle,Richard Paterson,Kenny Barr,2021-05-03 Focusing on the growing power of transnational media corporations in an increasingly globalized environment for distribution of television content and on the effects of mergers and acquisitions involving local and independent television production companies this book examines how current and recent re structurings in ownership across the television industry reflect changing business models how they affect creativity and diversity of television output and to what extent they call for new approaches to regulation and policy Based on a major study of the UK production sector as a case study it offers a unique analysis of wider transformations in ownership affecting the television production industry worldwide and of their economic socio cultural and policy implications

The Influence of Information Order Effects and Trait Professional Skepticism on Auditors' Belief Revisions Kristina Yankova,2015-02-10 Kristina Yankova addresses the question of what role professional skepticism plays in the context of cognitive biases the so called information order effects in auditor judgment Professional skepticism is a fundamental concept in auditing Despite its immense importance to audit practice and the voluminous literature on this issue professional skepticism is a topic which still involves more questions than answers The work provides important theoretical and empirical insights into the behavioral implications of professional skepticism in auditing

31-07-2019, Managerial Economics Donald N. Stengel,2011-06-30 If you have good economic principles then more than likely you re making good business decisions Although economics is sometimes dismissed as a discourse of practical relevance to only a relatively small circle of academicians and policy analysts who call themselves economists sound economic reasoning benefits any manager of a business whether they are involved with production and operations marketing finance or corporate strategy This highly respected text will help you and any business manager with managerial economics which is the application of microeconomics to business decisions Inside you ll learn about the key relationships between price quantity cost revenue and profit which are detailed for an individual firm in

the form of simple conceptual models The book includes key elements from the economics of consumer demand and the economics of production It also discusses economic motivations for expanding a business and contributions from economics for improved organization of large firms as well as market price quantity equilibrium competitive behavior and the role of market structure on market equilibrium and competition It concludes by considering market regulation in terms of the generic problems that create the need for regulation and possible remedies for those problems [innowacje marketingowe w sektorze e-commerce](#) ,2013-12-01 This monograph does not solve all the issues and problems associated with the use of marketing innovations in the sector of e commerce which should be the foundation for further research Studies to identify the popularity of the use of particular forms of marketing and innovation to monitor existing trends and new solutions should be used The proper approach would be the study of online customers identifying noticeable and effective innovations Verification of the effectiveness of specific forms and tools of promotion comparing the opinions of store owners confronted with the opinions of their customers seems an interesting direction of further study *Managerial Discretion and Performance in China* Hagen Wülferth,2013-04-17 The theoretical and empirical literature to date has fallen short of reaching a consensus as to whether granting more managerial discretion to managers tends to enhance not alter or diminish organizational performance the discretion puzzle This book aims to build a bridge between these contradictory results by synthesising principal agent theory stewardship theory and managerial discretion theory into a new empirically validated model Using a representative sample of double blind interviews with managers of 467 firms in China and applying partial least squares path modelling PLS the study identifies a potential cause of the discretion puzzle the failure of the extant literature to account for granularity in the way that managers use their discretion This generates far reaching implications for theoretical and empirical research as well as practical recommendations for managing managers in multinationals and Chinese companies [Encyclopedia of Business Information Sources](#) James Woy,2001-09 [Encyclopedia of Business Information Sources](#) Linda D. Hall,2008 Each updated edition of this detailed resource identifies nearly 35 000 live print and electronic sources of information listed under more than 1 100 alphabetically arranged subjects industries and business concepts and practices Edited by business information expert James Woy [Operation Research](#) Prof. H. Integrative Long-Term Supply Chain Demand Planning Solveig Zinnert, 2010 Integrative planning in supply chains is an essential field in logistics management But still there are open questions especially in a long term perspective In order to align strategic decisions of several supply chain partners an integrated long term demand planning process is necessary but in many industries still mission This would enable companies for example to coordinate their long term investments in production facilities as well as transport and storage capacities and therefore increase overall efficiency in supply chains This edition gives a very good outline about the basic problem providing further an innovative stepwise approach to solve the integrated planning problem The concept is matched with the business case BP as a typical company and industry with influential long term changes ahead By this business example implementation the real life value of such planning instruments can be shown This will motivate many companies and industries to transfer the concept to their specific environments in order to further optimize their supply chains in the future

Business and Non-profit Organizations Facing Increased Competition and Growing Customers' Demands Adam Nalepka, Anna Ujwary-Gil, 2017 From the perspective of commercial and non commercial organizations this monograph with contemporary organizational and management problems focus on four thematic areas Traditionally the first one is concentrating the reader's attention on the internal aspects of the organization's functioning as an object of research In this regard articles related to the concept of corporate social responsibility in two ways organizational research and bibliometric analysis The authors used an analogical bibliometric approach to examine trends in publishing for the concept of learning organizations In this part of the discussion the social aspect has been strongly displayed also thanks to the social capital and enterprise Another topic in this section is the role of the workers' knowledge in creating innovative solutions emphasizing the role of trust and culture rich collaboration between employees employees participation in creating projects and organizational change In addition it discusses the role of information and knowledge networks and sharing knowledge among employees which does remain without influence on the shaping of individual employees' careers Slightly different from the other articles though set in this section there is an article referring to the organizational pathology These considerations are much more valuable usually because of the difficult access to negative information The next section presents articles in the context of the modern tools used in the management of commercial and non commercial organizations This part of the discussion starts an article about forecasting methods and modern models of business management In opposition to these considerations the problem of unused modern management methods in the local government sector remains valid Also it refers to social media as a source of customer knowledge and management control which should be considered as a strong and innovative determinant influencing the development of contemporary management methods of a modern enterprise Interesting considerations are included in the article on the

process management with emphasis on the dynamic management of business processes and IT systems that go with it The other articles present the concepts of the risk management model in a technology project business model used in franchising and the concept of accountability in conjunction with the development of innovation thanks to negotiating the role of intellectual capital The modern market economy forces organizations to develop their ability to adapt to the conditions by improving their organization continually It shows how modern day commercial and non commercial organizations are competing in a competitive market This section opens the article referring to the social competences of students developed during their studies and the competences of the future which were studied and compared in two universities The integral part of the organization s functioning of the organization in the environment is their broadly understood cooperation for the implementation of the objectives and achieving a competitive advantage in the market This trend covers articles referring to the participation of county in networking modeling synergistic interrelations within the business association or the conditions that should be met between enterprises and institutions supporting the technological development of the organization Other considerations concern customer preferences concerning their choice of commercial banks the factors that determine the choice of financial instruments by small and medium enterprises or the demands of sustainable family business development The final part of the articles is related to a broader perspective and so the functioning of the organization from a sectoral perspective and across industries A distinctive feature is a sectoral approach to knowledge based business services the determinants of knowledge based products in the pharmaceutical industry and the behavior of competing companies in the chocolate and confectionery industry A separate topic in this section is the concept of capturing value or the value in a sectoral approach The issues related to the protection of personal data in the healthcare sector patent activity of enterprises in the technology park as well as the management of resources in the cluster The prepared monograph is an interdisciplinary compendium of knowledge on the functioning of both commercial and non commercial organizations in the context of three perspectives micro meso and macro The advantage of this type of studies is modern and up to date look at the problems of management organization behavior or the functioning of the organizations in the sector
