Wagner, 2023-12-22 Forestry Economics introduces students and practitioners to the economics of managing forests and forest enterprises The book adopts the approach of managerial economics textbooks and applies this to the unique problems and production processes faced by managers of forests and forest enterprises What many future forest and natural resource managers need is to understand what economic information is and how to use it to make better business and management decisions John E Wagner draws on his 30 years of experience

teaching and working in the field of forest resource economics to present students with an accessible understanding of the unique production processes and problems faced by forest and other natural resource managers The second edition has been updated to include Expanded discussion of compounding discounting and capital budgeting as well as an expanded discussion of when to replace a capital asset that has i costs but no direct revenue stream such as a machine ii costs and a direct annual revenue stream such as a solar array or iii costs and a periodic revenue stream illustrated by the forest rotation problem New practical examples to provide students with applications of the concepts being discussed in the text most notably on New Zealand and a Radiata Pine Pinus radiata Plantation A brand new chapter that develops business plans for for profit businesses to illustrate how a business plan is derived from the economic information contained within the Architectural Plan for Profit and how it can be used to make business decisions about continuing to operate a business or to start a new business This textbook is an invaluable source of clear and accessible information on forestry economics and management not only for economics students but also for students of other disciplines and those already working in forestry and natural resources

Strategic Management Marios Katsioloudes, Arpi K Abouhanian, 2009-11-04 Strategic Management has a unique approach goes beyond the traditional application for the for profit sector to address issues for the non profit sector It is the only graduate level text that approaches strategic management from a global cultural perspective

Tackling Poverty Ebikinei Stanley Eguruze, 2016-04-30 This study investigates what young people and community organisations see as their support needs in Bayelsa State of Nigeria in tackling poverty It also examines the process of influencing policy makers using social marketing techniques It seeks to expand understanding of the poverty elimination processes not only within a developing countrys rural environmental context but also endeavours to generalize the findings more broadly It seeks an inclusive approach to policy determination driven by involving grassroots levels A mixed methods research design was adopted engaging a quantitative approach in which 300 young people were surveyed using self completion questionnaires In addition a qualitative study in which policy makers as well as young people and community organisations were interviewed A discussion group methodology was adopted Following the data analysis a strategy conference was organized in Nigeria in which the major findings were presented and debated This research has improved on the previous Multi dimensional Poverty Index by enlarging it and combining it with a current Social Marketing Technique model The new Multi dimensional Poverty Index Implementable Joint Programme of Action model is user friendly and retains the multidimensional paradigm This extension was achieved through the literature research the development of methodology adopting mixed methods approach and the strategy conference The main findings of the research show that young people and community organisations support needs in Bayelsa State of Nigeria are far from being met A great deal of additional support is required The most significant causes of poverty amongst young people and community organisations are corruption of government officials absence of jobs low wages oil pollution and IMF World Bank conditionalities It was also

found that the main experiences of poverty include a high youth unemployment rate lack of money to go to school lack of money to start small businesses less food to eat no money to treat sickness no money to buy clothes no money to afford decent homes prostitution and absence of a public transportation system The research considers the ways in which this additional support might be provided Importantly the research also revealed how extreme poverty could be alleviated and by persuading policy makers to create real jobs and job opportunities as well as developing employability skills and improving agriculture In addition there is a need to attract investors oil companies to Bayelsa State and to increase investment spending The lack of social infrastructure and access to free education steady electricity and free healthcare are also seen as problems Finally the research revealed that actively involving young people and community organisations in policy decision making and policy implementation processes including setting new priorities or re directing is likely to enhance the probability of ending extreme poverty **Plastic Surger: 6 Volume Set - E-Book** Peter C.
