Honky Dalton Conley:

Honky Dalton Conley, 2000-10-11 A coming of age memoir of a white boy growing up in predominantly African American and Latino housing projects on New York's Lower East Side reveals how race and class were pivotal factors in his life

Respekt im Zeitalter der Ungleichheit Richard Sennett, 2010-07-01 Manche radikalen Denker glauben man müsse lediglich für mehr soziale Gerechtigkeit sorgen um auch mehr gegenseitigen Respekt zwischen den Menschen zu wecken Aber ist das überhaupt realistisch Zieht Selbstachtung nicht automatisch mangelnden Respekt gegenüber denjenigen nach sich die im unbarmherzigen sozialen und wirtschaftlichen Wettbewerb die Benachteiligten sind Bei der Suche nach Antworten greift Sennett auch auf seine eigene Lebensgeschichte zurück Aufgewachsen in einem Ghetto von Chicago gelang ihm zunächst mit Hilfe der Musik und dann des Studiums in Harvard der soziale Aufstieg Erneut erweist sich Sennett als konstruktiver kritischer Geist mit Weitblick als jemand der mit Hilfe anschaulicher Beispiele grundlegende gesellschaftliche Veränderungen benennt

The Collectivity of Life Joel Wendland, 2016-02-01 The Collectivity of Life is a study of autobiographical writing and oral histories situated in the late twentieth century United States The central thesis is that by studying how the authors of these narratives articulate space in their stories we can uncover a recurring critique of meritocratic individualism and reconstruct a counter mythology that locates social mobility in collectivist experiences Fourteen autobiographical works are studied including those of Malcolm X Audre Lorde Barack Obama and numerous others from multiple ethnic and several regions of the U S ranging from 1964 through 2008 More than 40 oral histories housed in archives in several regions of the country help to establish the book's goal By using a concept of space this book shifts the focus of personal narrative from the internal resources of the individual to networks of support and collective efforts in the formation of their identities and the basis of their life accomplishments

Beyond Liberation Theology Ivan Petrella, 2013-01-03 Liberation theologies are the most important theological movement of our time In the 20th century their influence shook the Third and First Worlds grass root organizations and the affluent Western academy as well as the lives of priests and laypeople persecuted and murdered for living out their understanding of the Christian message In the 21st C their insights and goals remain unfortunately as valid as ever

Life Stories Maureen O'Connor, 2011-08-23 Memoirs autobiographies and diaries represent the most personal and most intimate of genres as well as one of the most abundant and popular Gain new understanding and better serve your readers with this detailed genre guide to nearly 700 titles that also includes notes on more than 2 800 read alike and other related titles The popularity of this body of literature has grown in recent years and it has also diversified in terms of the types of stories being told and persons telling them In the past readers advisors have depended on access by names or Dewey classifications and subjects to help readers find autobiographies they will enjoy This guide offers an alternative organizing the literature according to popular genres subgenres and themes that reflect common reading interests Describing titles that range from travel and adventure classics

and celebrity autobiographies to foodie memoirs and environmental reads *Life Stories A Guide to Reading Interests in Memoirs Autobiographies and Diaries* presents a unique overview of the genre that specifically addresses the needs of readers advisors and others who work with readers in finding books **Black School, White School** Jeffrey S. Brooks, 2012-03-30 How do race and race relations influence leadership practice and the education of students In this timely and provocative book the author identifies cultural and unstated norms and beliefs around race and race relations and explores how these dynamics influence the kind of education students receive Drawing on findings from extensive observations interviews and documents the author reveals that many decisions that should have been based on pedagogy or what is best for students were instead inspired by conscious and unconscious racist assumptions discrimination and stereotypes With applicable implications and lessons for all this book will help schools and leadership programs to take the next step in addressing longstanding and deeply entrenched inequity and inequality in schools **Sociology Meets Memoir** Margaret K. Nelson, 2024-12-17 This innovative book offers a discussion of how memoirs might be useful for sociologists By reading the guide students and teachers alike will gain an understanding of how they might approach the current outpouring of memoirs and incorporate them into their teaching learning writing and research **Shades of White** Pamela Perry, 2002-02-14 A comparative ethnography in two high schools one urban and one suburban that studies the differing notions of whiteness and race that predominate among students at each school *Not Quite White* Matt Wray, 2006-11-03 Analyzes the origins of the derogatory phrase white trash by documenting the meanings projected on to poor rural whites in the U S from the early 1700s through the early 1900s *Rhetorical Listening* Krista Ratcliffe, 2005 Long ignored within rhetoric and composition studies listening has returned to the disciplinary radar *Rhetorical Listening Identification Gender Whiteness* argues that rhetorical listening facilitates conscious identifications needed for cross cultural communication **The Hidden Cost of Being African American** Thomas M. Shapiro, 2004 Over the past three decades racial prejudice in America has declined significantly and many African American families have seen a steady rise in employment and annual income But alongside these encouraging signs Thomas Shapiro argues in *The Hidden Cost of Being African American* fundamental levels of racial inequality persist particularly in the area of asset accumulation inheritance savings accounts stocks bonds home equity and other investments Shapiro reveals how the lack of these family assets along with continuing racial discrimination in crucial areas like homeownership dramatically impact the everyday lives of many black families reversing gains earned in schools and on jobs and perpetuating the cycle of poverty in which far too many find themselves trapped Shapiro uses a combination of in depth interviews with almost 200 families from Los Angeles Boston and St Louis and national survey data with 10 000 families to show how racial inequality is transmitted across generations We see how those families with private wealth are able to move up from generation to generation relocating to safer communities with better schools and passing along the accompanying advantages to their children At the same time those

without significant wealth remain trapped in communities that don't allow them to move up no matter how hard they work Shapiro challenges white middle class families to consider how the privileges that wealth brings not only improve their own chances but also hold back people who don't have them This wealthfare is a legacy of inequality that if unchanged will project social injustice far into the future Showing that over half of black families fall below the asset poverty line at the beginning of the new century The Hidden Cost of Being African American will challenge all Americans to reconsider what must be done to end racial inequality "How Do We Know They Know?" R. Deborah Davis, Arcenia London, Barbara Beyerbach, 2009 Teacher education programs are charged with educating teachers to teach all students preparing them to teach multiethnic multiracial multilingual and differently abled students in an increasingly global inter dependent world This book takes as its starting point the assumption that pre service teacher candidates primarily white and middle class come to college to pursue a teaching degree having little if any experience of a social nature with persons not like themselves Rooted in areas of theory and practice and based around the Schools and Society and Culturally Relevant Teaching courses required by the Teacher Education Program social justice conceptual framework How Do We Know They Know is a conversation about ways to assess these pre service teachers growth and movement as they progress from naivet to awareness about the realities of culture in schools

Introduction to Sociology George Ritzer, 2015-08-28 Join the conversation with one of sociology's best known thinkers The Third Edition of Introduction to Sociology thoroughly revised and updated continues to show students the relevance of the introductory sociology course to their lives While providing a rock solid foundation George Ritzer illuminates traditional sociological concepts and theories as well as some of the most compelling contemporary social phenomena globalization consumer culture the Internet and the McDonalidization of society As technology flattens the globe students are challenged to apply a sociological perspective to their world and to see how public sociologists are engaging with the critical issues of today

The Persistence of Poverty in the United States Garth L. Mangum, Stephen L. Mangum, Andrew M. Sum, 2003 For more than thirty years students scholars and policymakers have relied on successive editions of Sar A Levitan's Programs in Aid of the Poor Now in conjunction with the eighth edition of that classic work coauthors Garth Mangum Stephen Mangum and Andrew Sum offer a brief but comprehensive overview of the

facts of poverty in the United States its underlying causes and the reasons for its persistence in the richest nation in the world Providing a wealth of data and cogent analysis this book can be used along with Programs for additional background or can stand on its own This volume demonstrates more starkly than its parent the persistence of poverty in this nation Though some individuals and families manage to escape it the phenomenon diminishes not at all or at least very little Having been sobered by this thought the student may ponder what more might conceivably be done to reduce the incidence of that endemic economic and social disease from the Preface The Nation ,2001 The Inner World of Research Stefan Svallfors,2020-02-11 The Inner World of Research is a book about the joys and miseries of life as a researcher Dealing with essential but rarely mentioned topics in the everyday life of a researcher it focuses in particular on the role of emotions and social relations in research It stretches from the individual researcher to the micro cosmos of the research team and to the broader policy environment in which research takes place Though based on autobiographical material from Stefan Svallfors long career as a leading social scientist the book also derives from extended interviews with researchers from a variety of disciplines and with authors artists and musicians It delves into the mysteries of creativity the joys and frustrations of collaboration and the role of fear anger and boredom in the life of a researcher Below the Surface Deborah Rivas-Drake,Adriana Umaña-Taylor,2021-06-08 A guide to the latest research on how young people can develop positive ethnic racial identities and strong interracial relations Today s young people are growing up in an increasingly ethnically and racially diverse society How do we help them navigate this world productively given some of the seemingly intractable conflicts we constantly hear about In Below the Surface Deborah Rivas Drake and Adriana Uma a Taylor explore the latest research in ethnic and racial identity and interracial relations among diverse youth in the United States Drawing from multiple disciplines including developmental psychology social psychology education and sociology the authors demonstrate that young people can have a strong ethnic racial identity and still view other groups positively and that in fact possessing a solid ethnic racial identity makes it possible to have a more genuine understanding of other groups During adolescence teens reexamine redefine and consolidate their ethnic racial identities in the context of family schools peers communities and the media The authors explore each of these areas and the ways that ideas of ethnicity and race are implicitly and explicitly taught They provide convincing evidence that all young people ethnic majority and minority alike benefit from engaging in meaningful dialogues about race and ethnicity with caring adults in their lives which help them build a better perspective about their identity and a foundation for engaging in positive relationships with those who are different from them Timely and accessible Below the Surface is an ideal resource for parents teachers educators school administrators clergy and all who want to help young people navigate their growth and development successfully Library Journal ,2001 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **The Racial Order** Mustafa Emirbayer,Matthew

Desmond, 2024-05-31 Proceeding from the bold and provocative claim that there never has been a comprehensive and systematic theory of race Mustafa Emirbayer and Matthew Desmond set out to reformulate how we think about this most difficult of topics in American life In *The Racial Order* they draw on Bourdieu Durkheim and Dewey to present a new theoretical framework for race scholarship Animated by a deep and reflexive intelligence the book engages the large and important issues of social theory today and along the way offers piercing insights into how race actually works in America Emirbayer and Desmond set out to examine how the racial order is structured how it is reproduced and sometimes transformed and how it penetrates into the innermost reaches of our racialized selves They also consider how and toward what end the racial order might be reconstructed In the end this project is not merely about race it is a theoretical reconsideration of the fundamental problems of order agency power and social justice *The Racial Order* is a challenging work of social theory institutional and cultural analysis and normative inquiry
