*The Twilight of the Gothic?* Joseph Crawford, 2014-05-15 This book explores the history of the paranormal romance genre from its origins in the revisionist horror fiction of the 1970s via its emergence as a minor sub genre of romantic fiction in the early 1990s to its contemporary expansion in recent years into an often controversial genre of mainstream fiction Tracing the genre from its roots in older Gothic fiction written by and for women it explores the interconnected histories of Gothic and romantic fiction from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy Twilight True Blood and The Vampire Diaries in the present day In doing so it investigates the extent to which the post Twilight paranormal romance really does represent a break from older traditions of Gothic fiction and just what it is about the genre that has made it so extraordinarily divisive captivating millions of readers whilst simultaneously infuriating and repelling so many others

*The Physiology of the Novel* Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked and soothed by authors newly aware of the neural

operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century The Physiology of the Novel challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling

**American Literary Realism and the Failed Promise of Contract** Brook Thomas,2023-04-28 In American Literary Realism and the Failed Promise of Contract the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era s literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society s inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract s promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain s Adventures of Huckleberry Finn and James s The American evoke moments where relationships of status could theoretically transform into equitable contractual interactions However these fictional moments of promise often falter reflecting contract s inability to establish a truly egalitarian social order The rise of corporate capitalism further complicated contract s promise as corporations fostered a form of economic structure that subordinated individual agency reinforcing rather than alleviating social inequities The text also considers how these issues resonate today especially as contractual ideals influence contemporary notions of social justice While the promise of contract continues to appeal to a vision of equal opportunity the persistent influence of race class and gender hierarchies complicates its realization The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions challenging readers to reimagine a society where individuals might genuinely be free and equal not just in theory but in practice In doing so this book presents realism not as an endorsement of the status quo but as a field of critical inquiry urging us to address the unresolved questions about equity

that persist in American society This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

**Performance and Performativity in Contemporary Indian Fiction in English**

Maria-Sabina Draga

Alexandru, 2015-02-04 This book starts with a consideration of a 1997 issue of the New Yorker that celebrated fifty years of Indian independence and goes on to explore the development of a pattern of performance and performativity in contemporary Indian fiction in English Salman Rushdie Arundhati Roy and Vikram Chandra Such fiction which constructs identity through performative acts is built around a nomadic understanding of the self and implies an evolution of narrative language towards performativity whereby the text itself becomes nomadic A comparison with theatrical performance Peter Brook's Mahabharata and Girish Karnad's theatre of roots serves to support the argument that in both theatre and fiction the concepts of performance and performativity transform classical Indian mythic poetics In the mythic symbiosis of performance and storytelling in Indian tradition within a cyclical pattern of estrangement from and return to the motherland and or its traditions myth becomes a liberating space of consciousness where rigid categories and boundaries are transcended

**4E Cognition and Eighteenth-Century Fiction** Karin Kukkonen, 2019-01-16 When the novel broke into cultural prominence in the eighteenth century it became notorious for the gripping immersive style of its narratives In this book Karin Kukkonen explores this phenomenon through the embodied style in Eliza Haywood's flamboyant amatory fiction Charlotte Lennox's work as a cultural broker between Britain and France Sarah Fielding's experimental novels and Frances Burney's practice of life writing and fiction writing Four female authors who are often written out of the history of the genre are here foregrounded in a critical account that emphasizes the importance of engaging readers' minds and bodies and which invites us to revisit our understanding of the rise of the modern novel Kukkonen's innovative theoretical approach is based on the approach of 4E cognition which views thinking as profoundly embodied and embedded in social and material contexts extending into technologies and material devices such as a pen and enactive in the inherent links between perceiving the world and moving around in it 4E Cognition and Eighteenth Century Fiction investigates the eighteenth century novel through each of these trajectories and shows how language explores its embodied dimension by increasing the descriptions of inner perception or the bodily gestures around spoken

dialogue The embodied dimension is then related to the media ecologies of letter writing book learning and theatricality As the novel feeds off and into these social and material contexts it comes into its own as a lifeworld technology that might not answer to standards of nineteenth century realism but that feels real because it is integrated into the lifeworld and embodied experiences 4E cognition answers one of the central challenges to cognitive literary studies how to integrate historical and cultural contexts into cognitive approaches      *Richardson and Fielding* Allen Michie,1999-09 Richardson and Fielding *The Dynamics of a Critical Rivalry* is the first book length study of one of literature s most persistent and influential rivalries Using an adaptation of Hans Jauss s reception theory it surveys the recurring dichotomies projected onto Richardson and Fielding by all types of eighteenth nineteenth and twentieth century readers Even when the rival is not mentioned directly readers usually make it pointedly clear that one author is being privileged at the other s expense Even apart from its serious implications for literary history the story of the Richardson Fielding rivalry is a fascinating source of critical passions prejudices scholarly irresponsibility wit and often surprising interrelations between the literary tastes and cultural environments of the day BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**The Realistic Imagination** George Levine,1981 In *The Realistic Imagination* George Levine argues that the Victorian realists and the later modernists were in fact doing similar things in their fiction they were trying to use language to get beyond language Levine sees the history of the nineteenth and early twentieth century novel as a continuing process in which each generation of writers struggled to escape the grip of convention and attempted to create new language to express their particular sense of reality As these attempts hardened into new conventions they generated new attempts to break free

*Romantic Adaptations* Cian Duffy,Peter Howell,2016-04-08 How did romanticism define its relationship with its sources How has romanticism since been understood and misunderstood across a range of cultural activities These are among the questions taken up in this reexamination of the place of adaptation within romanticism Renegotiating the cultural topography of the period and the place of romanticism in subsequent cultural history the volume focuses on the adaptation of source material by romantic writers and the adaptation in subsequent periods of the tropes and ideologies associated with romanticism In place of a hierarchical distinction between source and text between romanticism and its contexts the collection identifies distinct but overlapping and mutually constitutive genres such as the Gothic and romance Whether their essays deal with early nineteenth century periodical reviews affordable editions of *Pride and Prejudice* aimed at the late nineteenth century mass audience or the ongoing cultural presence of romanticism in late twentieth and early twenty first century debates about embryology and stem cell research the contributors remain cognizant of the tension between the processes of adaptation and the apparent ideology of romantic originality      **Humanistic Heritage** Daniel R.
