the guitar but the truth is most guitarists don't have a method at all. They just pick up their acoustic and strum a few chords or they sit and noodle about on their electric for hours on end. I know I made those mistakes too when learning. Now after teaching 100's of students and 10,000's of hours of lessons taught, I want to ensure you learn the guitar the better way. All 8 tips will help you on your journey to be the best guitarist you can be. Some will surprise you but ALL 8 steps are highly effective and are the result of me teaching 10,000's of hours of lessons and tweaking and perfecting my methods. You will get the benefit of these. In the book you will learn some simple and easy to apply nuggets of information, things such as how to improve your strumming, improve your aural skills, exactly how to practice and what to practice. All this and plenty more. This is a short and right to the point book with zero filler. I wanted to make a quick and easy guide that you can apply right away. The value of the content of the book is far more than the very low price as the information contained in it will potentially save you 100's of hours of time and frustration. The 8 Step Beginner's Guide To Being A Kick Ass Guitarist is a fun read and will help your guitar playing. I guarantee it. Dan Thorpe Guitar Domination 5 Stars. Good solid advice for any beginner. Always better to start from a good base knowledge of a few seemingly simple principles instead of wasting time not mastering them from the offset. I have to say the man talks some sense. Stephen Taylor. Guitar for Beginners Guitar Head, 2019-07-16. It Took Me 3 Months to Play My First Song But You'll Be Doing That in Less Than A Week. It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided like every other person to ever pick up the guitar. I took the traditional method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and learning boring theory. This book is here to end that. To simplify things to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days. How can this book do that? You would have heard people say, "You need to learn theory to be a real guitarist." Well, Wrong. Not everyone needs to know theory. Why do you need to learn all the boring theory if it's of no use to you? Why is this forced upon all guitarists? This book cuts out all the crap and gives you a streamlined process of mastering guitar. Even if you failed every exam at school and you have never picked up a single instrument in your life, you will be able to become a proficient guitar player without years and years of expensive guitar lessons. With the right strategy, you will get addicted to your guitar and the songs you are able to play. How long will I have to practice? Now I know you have other commitments in life and cannot spend 25 hours a day practicing guitar. No one wants to do that. This book has been designed with exactly that in mind. It will give you goals for each of your 7 days with step by step instructions on what to play each day. You won't have to worry if you're practicing too less or too much. The book will tell you what you need to be accomplishing each day. Commit a few hours a day for 7 days and you'll make your friends and family jealous when you pull your guitar out. It doesn't matter if you just enter primary school or you are about to retire. This calculation applies to all 6.8 billion people between 6 and 80 years of age in this world. In Guitar for Beginners you'll discover A practical day by day guide to own yourself and your guitar in less than 7 days. How you be your guitar teacher.
