Proclaiming Holy Scriptures David H. Pereyra, 2020-12-30 This book provides a comprehensive study on the proclamation of Holy Scriptures as an enacted celebration as well as its function as a performance within sacralized theatrical spaces Scripture is integral to religious life within Judaism Christianity and Islam and these traditions have venerated the reading of texts from an appointed place as a sacred act Thus the study of how these readings are conducted illuminates some vitally important aspects of this widespread act of worship Contributing to an underexplored area of scholarship the book offers an overview of scripture reading in the three Abrahamic faiths and then focuses on where and how the Word of God is presented within the Christian tradition It gathers and summarizes research on the origins of a defined place for the proclamation of holy writings giving a thorough architectural analysis and interpretation of the various uses and symbols related to these spaces over time Finally the listener is considered with a phenomenological description of the place for reading and its hermeneutical interpretation The material in this book uncovers the contemporary impact of a rich history of publicly reading out scriptures It will therefore be of great interest to scholars of liturgical theology religious studies and ritual studies

Church at Church Ronald Andrew Rienstra, 2022-01-01 Jean Jacques von Allmen's work was animated by three key insights the Church both learns and becomes what it truly is when it gathers to worship worship tells the story of God's salvation history and invites God's people into it and by doing so the church offers the world both a stern warning and a hopeful promise The Swiss Reformed pastor and professor is among the most admired liturgical theologians of the twentieth century but his work is largely and lamentably unknown to most worship leaders In Church at Church Ron Rienstra provides an introduction to this important thinker He offers methodological and biographical context and then explores von Allmen's most generative insights concerning the church as it engages in its most foundational activity worship Viewed through the lens of the Nicene marks Rienstra's exploration yields the outlines of a liturgical ecclesiology a way to help the church think more deeply about its identity and to help its leaders shape the worship they prepare and lead today
