Gary Paulsen The Crossing Study Guide:

A Study Guide for Marilynne Robinson's "Housekeeping" Gale, Cengage Learning, 2016-06-29 A Study Guide for Marilynne Robinson's *Housekeeping* excerpted from Gale's acclaimed *Novels for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Novels for Students* for all of your research needs. *Preparing Every Teacher to Reach English Learners* Joyce W. Nutta, Kouider Mokhtari, Carine Strebel, 2020-07-29 2013 Outstanding Book Award American Association of Colleges for Teacher Education AACTE *Preparing Every Teacher to Reach English Learners* presents a practical, flexible model for infusing English learner (EL) instruction into teacher education courses. The editors outline the key steps involved in this approach: winning faculty support, assessing needs, and developing capacity, and share strategies for avoiding pitfalls. The central chapters feature sample courses illustrating how EL content can be incorporated into standard courses: human development, learning disabilities, and social foundations, and across subject areas and topics: math, science, social science, physical education, and classroom management. Most preservice teacher candidates report that they feel unprepared to work with English learners. This practical, flexible model for infusing EL content into teacher education will provide an invaluable resource in shaping the next generation of teachers. **Hatchet, [by] Gary Paulsen, with Connections** Holt, Rinehart, and Winston, Inc, 1999 Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing, and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and, at the same time, help readers meet national content knowledge standards and benchmarks. **Projects for New Technologies in Education** Bloomsbury Publishing, 1994-09-15 This text integrates CD-ROMs, online databases, telecommunications, and information networks, e.g., CompuServe, America Online, 20th Century Video Encyclopedia, into resource-based instruction cooperatively planned by the teacher, librarian, and the classroom teacher for students working in cooperative learning groups.
