Fresh Fruit Broken Bodies Migrant Farmworkers In The United States California Series In Public Anthropology:

Fresh Fruit, Broken Bodies Seth M. Holmes, Jorge Ramirez-Lopez, 2023-11-28 *Fresh Fruit Broken Bodies* provides an intimate examination of the everyday lives suffering and resistance of Mexican migrants in our contemporary food system. Seth Holmes, an anthropologist and MD in the mold of Paul Farmer and Didier Fassin, shows how market forces, anti-immigrant sentiment, and racism undermine health and health care. Holmes was invited to trek with his companions clandestinely through the desert into Arizona and was jailed with them before they were deported. He lived with Indigenous families in the mountains of Oaxaca and in farm labor camps in the United States, planted and harvested corn, picked strawberries, and accompanied sick workers to clinics and hospitals. This embodied anthropology deepens our theoretical understanding of the ways in which social inequities come to be perceived as normal and natural in society and in health care. In a substantive new epilogue, Holmes and Indigenous Oaxacan scholar Jorge Ramirez Lopez provide a current examination of the challenges facing farmworkers and the lives and resistance of the protagonists featured in the book. **Fresh Fruit,**

Broken Bodies Seth M. Holmes, 2013-06-19 An intimate examination of the everyday lives and suffering of Mexican migrants and indigenous people in our contemporary food system. An anthropologist and MD in the mold of Paul Farmer and Didier Fassin, Seth Holmes shows how market forces, anti-immigrant sentiment, and racism undermine health and healthcare. Holmes's material is visceral and powerful. He trekked with his companions illegally through the desert into Arizona and was jailed with them before they were deported. He lived with indigenous families in the mountains of Oaxaca and in farm labor camps in the U.S., planted and harvested corn, picked strawberries, and accompanied sick workers to clinics and hospitals. This embodied anthropology deepens our theoretical understanding of how health equity is undermined by a normalization of migrant suffering, the natural endpoint of systemic dehumanization, exploitation, and oppression that clouds any sense of empathy for invisible workers. *Fresh Fruit Broken Bodies* is far more than an ethnography or supplementary labor studies text. Holmes tells the stories of food production workers from as close to the ground as possible, revealing often theoretically discussed social inequalities as irreparable bodily damage done. This book substantiates the suffering of those facing the danger of crossing the border, threatened with deportation or otherwise caught up in the structural violence of a system promising work but endangering or ignoring the human rights and health of its workers. All of the book award money and royalties from the sales of this book have been donated to farm worker unions, farm worker organizations, and farm worker projects in consultation with farm workers who appear in the book. *Experiential and Performative Anthropology in the*

Classroom Pamela R. Frese, Susan Brownell, 2020-07-08 The contributors gathered here revitalize ethnographic performance, the performed recreation of ethnographic subject matter pioneered by Victor and Edith Turner and Richard Schechner as a progressive pedagogy for the 21st century. They draw on their experiences in utilizing performances in a classroom setting to facilitate learning about the diversity of culture and ways of being in the world. The editors themselves, both students of

Turner at the University of Virginia and Richard Schechner share recollections of the Turners vision and set forth a humanistic pedagogical agenda for the future A detailed appendix provides an implementation plan for ethnographic performances in the classroom

Sociopolitics of Migrant Death and Repatriation Krista E. Latham, Alyson J. O'Daniel, 2017-10-03 As scholars have by now long contended global neoliberalism and the violence associated with state restructuring provide key frameworks for understanding flows of people across national boundaries and eventually into the treacherous terrains of the United States borderlands The proposed volume builds on this tradition of situating migration and migrant death within broad systems level frameworks of analysis but contends that there is another perhaps somewhat less tidy but no less important sociopolitical story to be told here Through examination of how forensic scientists define navigate and enact their work at the frontiers of US policy and economics this book joins a robust body of literature dedicated to bridging social theory with bioarchaeological applications to modern day problems This volume is based on deeply and critically reflective analyses submitted by individual scholars wherein they navigate and position themselves as social actors embedded within and perhaps partially constituted by relations of power cultural ideologies and the social structures characterizing this moment in history Each contribution addresses a different variation on themes of power relations production of knowledge and reflexivity in practice In sum however the chapters of this book trace relationships between institutions entities and individuals comprising the landscapes of migrant death and repatriation and considers their articulation with sociopolitical dynamics of the neoliberal state

Scratching Out a Living Angela Stuesse, 2016-01-26 What does globalization look like in the rural South Scratching Out a

Living takes readers deep into Mississippi's chicken processing communities and workplaces where large numbers of Latin American migrants began arriving in the mid 1990s to labor alongside an established African American workforce in some of the most dangerous and lowest paid jobs in the country. Based on six years of collaboration with a local workers center activist anthropologist Angela Stuesse explores how Black white and new Latino residents have experienced and understood these transformations. Illuminating connections between the area's long history of racial inequality the poultry industry's growth immigrants contested place in contemporary social relations and workers prospects for political mobilization. *Scratching Out a Living* calls for organizing strategies that bring diverse working communities together in mutual construction of a more just future. The Oxford Handbook of Job Quality Chris Warhurst, Chris Mathieu, Rachel E. Dwyer, 2022-06-20 The aim of this Handbook is to produce an interdisciplinary and international benchmark text for anyone wanting to understand job quality. Job quality matters and has long and continually done so even if the terminology used to describe it has and continues to vary. Debate about the future of work and job quality in the twenty first century centres on the impact of the new digital technologies of the putative fourth industrial revolution. This debate compounds existing concerns about the restructuring of employment and importantly a worrying proliferation of poor quality jobs often within the context of neo liberal political economic hegemony since the early 1980s or the economic crisis that followed the Global Financial Crisis of the late 2000s. Job quality is offered as a solution to challenges such as health welfare productivity innovation economic competitiveness democracy and democratic participation. Bildung cultivation societal equality individual and collective quality of life and environmental sustainability. As job quality is a key factor in addressing these and the other challenges it needs to be understood in all its complexity in terms of what it affects as well as what affects it. This Handbook draws together into a single volume first an explicit focus on job quality both as a significant factor in and of itself and as producing instrumental effects on a range of other processes and outcomes second a catalogue of the diverse range of multiple contributions and applications related to job quality and third the complexity and multiple interpretations of the concept of job quality. Each chapter provides distinct responses to the question of why job quality matters coupled to a contention about for whom or for what job quality matters most. As the chapters with their respective answers and arguments attest there are a range of ways in which job quality is relevant to an equally broad range of social economic and political concerns.

Food Justice and Narrative Ethics Beth A. Dixon, 2018-09-06 Beth A Dixon explores how food justice impacts on human lives. Stories and reports in national media feature on the one hand hunger famine and food scarcity and on the other rising rates of morbid obesity and health issues. Other stories food justice narratives illustrate how to correct the ethical damage created by the first type of story. They detail the nature of oppression and structural injustice and show how these conditions constrain choices truncate moral agency and limit opportunities to live well. With stories from national media food and farming memoirs and scholarly ethnographies Dixon reveals how different food narratives are

constructed and enable identification of just solutions to issues surrounding food insecurity farm labor and the lived experience of obesity Drawing on Aristotle s concept of ethical perception Dixon demonstrates how we can use narratives to enhance our understanding and ethical competence about injustice in relation to food Food Justice and Narrative Ethics is a must read for students of food studies philosophy and media studies *Ritual, Rapture and Rebellion* Marianne Blom Brodersen,2024-11-01 The Gitanos of el Rastro carry an ontology of simultaneity as self employed traders and Pentecostal practitioners in Madrid This makes the Spanish Romani be considered as both a part of and apart from mainstream society This book is an anthropological account of a group of middle and upper class Gitanos and their ways of creating a society within society based upon distinct cultural moral and ideological values notions and practices The study renders a comprehensive perspective on social processes of classification stratification othering and the role of strangers in society and how these processes unfold in the interface between social ritual and economic life on a local to global scale If Truth Be Told Didier Fassin,2017-05-18 What happens when ethnographers go public via books opinion papers media interviews court testimonies policy recommendations or advocacy activities Calling for a consideration of this public moment as part and parcel of the research process the contributors to If Truth Be Told explore the challenges difficulties and stakes of having ethnographic research encounter various publics ranging from journalists legal experts and policymakers to activist groups local populations and other scholars The experiences they analyze include Didier Fassin s interventions on police and prison Gabriella Coleman s multiple roles as intermediary between hackers and journalists Kelly Gillespie s and Jonathan Benthall s experiences serving as expert witnesses the impact of Manuela Ivone Cunha s and Vincent Dubois s work on public policies and the vociferous attacks on the work of Unni Wikan and Nadia Abu El Haj With case studies from five continents this collection signals the global impact of the questions that the publicization of ethnography raises about the public sphere the role of the academy and the responsibilities of social scientists Contributors Jonathan Benthall Lucas Bessire Jo o Biehl Gabriella Coleman Manuela Ivone Cunha Vincent Dubois Nadia Abu El Haj Didier Fassin Kelly Gillespie Ghassan Hage Sherine Hamdy Federico Neiburg Unni Wikan *International Labour Migration to Europe's Rural Regions* Johan Fredrik Rye,Karen O'Reilly,2020-10-18 Emerging in the throes of a global pandemic that threatens Europe s economies and food security International Labour Migration to Europe s Rural Regions combines a diverse range of empirically rich in depth case studies analysis of their rural context specificities and insights from labour market and migration theories to critically examine the conditions and implications of rural labour migration Despite its growing political economic and social importance our understanding of international labour migration to Europe s rural regions remains limited This edited volume provides intricate descriptions of lived experience critical theoretical analyses analytical synthesis and policy recommendations for this novel and developing phenomenon that has the potential to transform the lives of international migrants and local communities The book s 25 authors represent a wide range of social science disciplines with coverage of a

brisés - Les ouvriers agricoles migrants aux Etats-Unis Seth M. Holmes, 2024-02-08. Suivre les travailleurs qui s'expatrient loin de leur famille, traverser avec eux la très dangereuse frontière américano-mexicaine. Suivre les travailleurs qui s'expatrient loin de leur famille, traverser avec eux la très dangereuse frontière américano-mexicaine, circuler entre plusieurs tats pour faire les récoltes dans des conditions extrêmes afin de rendre compte de l'expérience des ouvriers agricoles mexicains. Seth M. Holmes s'est attaché à partager et prouver leur quotidien. Cela lui permet de restituer dans une enquête portée par un souffle narratif rare leurs joies et leurs souffrances, ainsi que les preuves physiques d'un travail itinérant. Il rend compte du sort qui leur est réservé dans les fermes et lorsque le corps se brise dans les tablissements médicaux, leur prodiguant des soins de très médiocre qualité. Mais cette enquête anthropologique saisissante offre bien davantage. Derrière les fruits frais composant toute alimentation saine, elle met nu les structures économiques et sociales de l'exploitation des corps des migrants. Elle fait ressortir sa violence comme le poids des hiérarchies raciales, une forme de ségrégation dont s'accommodent les économies modernes. *The Routledge Handbook of Anthropology and Global Health* Tsitsi B.

Masvawure, Ellen E. Foley, 2024-03-20. *The Routledge Handbook of Anthropology and Global Health* provides an overview of the complex relationship between anthropology and global health. The book brings together a diverse group of scholars who consider the intersection of anthropological concerns with health and disease as understood and intervened upon by the field of global health. The book is structured around five sections: 1. social, cultural and political determinants of health; 2. knowledge production in anthropology and global health; 3. persistent invisibilities in global health; 4. reimagining a critical global health; and 5. new horizons in anthropology and global health. Over these five themes, a range of topics is explored, including rare diseases, medical pluralism, universal global health protocols, HIV, health security, indigenous communities, non-communicable diseases, decolonizing global health. *The Routledge Handbook of Anthropology and Global Health* is an essential resource for upper-level students and researchers in anthropology, global health, sociology, international development, health studies and politics. *Food in Cuba* Hanna Garth, 2023-05-25. Garth's in-depth and intimate ethnography portrays the shortcomings in Cuba's welfare system and the profound consequences for the way people eat. Megan A. Carney, author of *The Unending Hunger*. *Food in Cuba* follows Cuban families as they struggle to maintain a decent quality of life in Cuba's faltering post-Soviet welfare state by looking at the social and emotional dimensions of food access. Based on extensive fieldwork with families in Santiago de Cuba, Hanna Garth examines Cuban families' attempts to acquire and assemble a decent meal, unraveling the household dynamics, community interactions and individual reflections on everyday life in today's Cuba. With

the collapse of the Soviet Union in the 1990s Cuba lost its most significant trade partner Although trade agreements have improved the quantity and quality of rationed food in Cuba many Cubans still report living with food shortages and economic hardship Garth tells the stories of families that face the daily challenge of acquiring not only enough food but food that meets personal and cultural standards She argues that these ongoing struggles produce what the Cuban families describe as a change in character and that for some this shifting concept of self leads to a transformation of Cuban identity The Marginalized in Death Jennifer F. Byrnes,Iván Sandoval-Cervantes,2022-08-31 This volume bridges the gap between forensic and cultural anthropology in how both disciplines describe and theorize the dead highlighting the potential for interdisciplinary scholarship As applied disciplines dealing with some of the most marginalized people in our society forensic anthropologists have the potential to shed light on important and persistent social issues that we face today Forensic anthropologists have successfully pursued research agendas primarily focused on the development of individual biological profiles time since death recovery and identification Few however have taken a step back from their lab bench to consider how and why people become forensic cases or place their work in a larger theoretical context Thus this volume challenges forensic anthropologists to reflect how we can use our toolkit and databases to address larger social issues and quandaries that we face in a world where some are spared from becoming forensic anthropology cases and others are not As witnesses to violence crimes against humanity and the embodied consequences of structural violence we have the opportunity and arguably the responsibility to transcend the traditional medico legal confines of our small sub discipline by synthesizing forensic anthropology casework into theoretically grounded social science with potentially transformative impacts at a global scale Researching Corporations and Global Health Governance Kelley Lee,Benjamin Hawkins,2016-12-12 The profound changes to the world economy since the late twentieth century have been characterised by a growth in the number and size of transnational corporations In this context there is now increasing evidence of unprecedented reversals in health indicators among populations around the world Research in this area has focused on documenting the global health impacts arising from the economic activity of corporations The challenge for public health researchers is to understand the ways in which corporations are regulated by and participate in global health governance and implications for health and well being across the globe This book is an introductory guide to conducting research on the role of corporations in global health governance from a range of disciplinary perspectives and gives an overview of different approaches methodologies and data sources Also for case studies providing interdisciplinary empirical analysis of the impact of corporations on global health and global health governance see the partner volume <http://www.rowmaninternational.com/books/case-studies-on-corporations-and-global-health-governance>
