For each chapter, a list of key terms and multiple choice and true/false questions is provided. The tenth edition contains 1,786 questions. Some may require students to apply the chapter information to derive the correct answer. Students may test their understanding of the material by trying to answer the questions. Correct answers can be found in the back of the study guide. For questions that are answered incorrectly, return to the text and review the appropriate information. Through this process of review and self-testing, students can increase their understanding of the complexities of the criminal investigation process.
