The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals Reza Eftekhari, 2021-10-05 The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals The Partial Revival of the Localisation Theory focuses on the largely unexplored role of the host state law in determining the jurisdiction *ratione materiae* of investment treaty tribunals Given domestic law's essential role in subject matter jurisdiction issues and in the light of the broader function of host state law and host state courts in contemporary investment treaty law the author argues that the dormant localisation theory that was raised and defended by developing countries in the 1960s 1970s in the context of foreign investment contract disputes has now been partially revived in the area of the investment treaty law This is a significant milestone in the ongoing discussions on the reform of the investment treaty dispute settlement regime *The Law Times*, 1855 *The Principles of the Law of Restitution* Graham Virgo, 1999 This new textbook outlines the general principles of the rapidly developing subject of the Law of Restitution Restitution is concerned with the reversing of unjust enrichment and was recently recognized as a discrete body of law by the House of Lords although restitutionary principles have in fact been evolving for over 200 years Rather than taking the traditional approach which assumes that restitutionary remedies will be awarded against a defendant only where it can be shown that the defendant has been unjustly enriched at the expense of the plaintiff The book asserts that the law of restitution is simply concerned with the question of when restitutionary remedies may be awarded that is remedies which are assessed by reference to a benefit obtained by the defendant But in determining whether restitutionary remedies are available it is necessary to identify the causes of the action which triggers them There are three such causes of action namely the reversal of the defendant's unjust enrichment the commission of a wrong by the defendant and the vindication of the defendant's property rights The state of the law is

examined through analyses of the statutory provisions and key cases demonstrating the way the law is used to resolve a wide variety of legal problems The very different views of academics as to the nature and ambit of the subject are also identified This book will be invaluable to students on restitution courses at every level **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1970 *Negotiating Cultural Rights* Lucky Belder,Helle Porsdam,2017-10-27 The various reports on cultural rights by UN Special Rapporteur Faridah Shaheed provide a new universal standard on cultural rights with topics ranging from cultural diversity cultural heritage and the right to artistic freedom to the effects of today s intellectual property regimes The international team of expert contributors to this book reflect upon the many aspects of cultural rights in the reports and present a discussion of how cultural rights support cultural diversity foster intercultural dialogue and contribute to inclusive social economic and political development **The Canada Law Journal** ,1867 Includes section Book reviews The Bulletin of the Commercial Law League of America ,1919 Wilfred Bion, Thinking, and Emotional Experience with Moving Images Kelli Fuery,2018-06-14 Wilfred Bion s theories of dreaming of the analytic situation of reality and everyday life and even of the contact between the body and the mind offer very different and highly fruitful perspectives on lived experience Yet very little of his work has entered the field of visual culture especially film and media studies Kelli Fuery offers an engaging overview of Bion s most significant contribution to psychoanalysis his theory of thinking and demonstrates its relevance for why we watch moving images Bion s theory of thinking is presented as an alternative model for the examination of how we experience moving images and how they work as tools which we use to help us think emotional experience Being Embedded is a term used to identify and acknowledge the link between thinking and emotional experience within the lived reception of cinema It is a concept that everyone can speak to as already knowing already having felt it being embedded is at the core of lived and thinking experience This book offers a return to psychoanalytic theory within moving image studies contributing to the recent works that have explored object relations psychoanalysis within visual culture specifically the writings of Klein and Winnicott but differs in its reference and examination of previously overlooked but highly pivotal thinkers such as Bion Bollas and Ogden A theorization of thinking as an affective structure within moving image experience provides a fresh avenue for psychoanalytic theory within visual culture Wilfred Bion *Thinking and Emotional Experience with Moving Images* will appeal to psychoanalysts and psychoanalytic psychotherapists as well as scholars and students of film and media studies cultural studies and cultural sociology and anthropology visual culture media theory philosophy and psychosocial studies
