questo libro che offre 365 letture memorabili per attingere ispirazioni utili ad affrontare la vita di ogni giorno *The Mind of Consciousness* Ray Morose, 2011 *The Mind of Consciousness* The Mind of Consciousness is a book unfolding a new way with new process methods to evaluate your existence It is an experiential work written in textbook format that analytically delineates how and why consciousness and mind interface and function exposing the inter connective dependency of non biological consciousness and the biologically created mind Knowing how that interconnectivity interrelates provides avenues of exploration that reveal the fundamental nature of existence unveiling an innate purpose and direction embedded within consciousness This book works through all the major questions of existence using reproducible and experiential logic allowing everyone to experience the results of that exploration Throughout your life you have two realities at war with one another the primary I am reality formed from non biological consciousness and the secondary I am this or that reality formed by the biological mind You may not be aware of or even appreciate the internal conflict these two inter connective and inter dependent realities create However you experience the resultant turmoil and confusion their subliminal battles establish by not having an experiential appreciation of how those realities are formed function and potentially control your life The text delineates causation for those ongoing internal battles and outlines processes to help overcome the sense of frustration isolation and discord they generate This experiential method of examination creates empirical processes that afford you the opportunity to make an informed choice rather than a conditioned reaction providing a more secure productive directional and enjoyable life This book takes you into the core of your being turning it inside out exposing who and what you are by revealing a self created shadow world controlling your life without you being aware that control exists **In Search of the Holy Life** Ira Stone, Beulah Trey, 2019-03-06 We began our Mussar journey by following the practice instituted by Rabbi Yisrael Salanter in Lithuania in the nineteenth century a Mussar practice characterized by discipline and kabbush restraint as a path to self improvement We turned our inward facing journeys outward and applied Mussar s principles to the way we treated other people in our everyday lives We would focus on the small but critical moments of human interaction and connection that make up our days and undergird our relationships This prescription had the potential to serve as an antidote to the narcissism and isolation of our age and in doing so it could recast the very definition of the Divine for a contemporary audience **Religion** Rudolf Steiner, 2013-05-01 *Mysticism and beyond* the importance of prayer The meaning of sin and grace Rediscovering the Bible What is true communion Rediscovering the festivals and the life of the earth Finding one s destiny walking with Christ The significance of religion in life and death Christ s second coming the truth for our time Universal religion the meaning of love **Are You in Reality?** Gregoire Plus, 2010-01-14 *ARE YOU IN REALITY* The quest for wisdom or man s search for what reality is in his experiences comes from man s astonishment in front of all that exist When we see something we are lucid that we do not know the whole that which is the most profound is so hidden from our eyes that we easily prefer believing our own ideas to searching to unveil what the reality is Rather than to be toward

something we have not made and that escapes us we prefer to remain in the ideas we construct or to contemplate our own image We need to seek if we Are truly living in reality or if we remain in our ideas as the only full discovery of reality as it can be a path to wisdom and allow us to blossom Written from a series of seminars Are You in Reality is the author s contribution coming from his own experiences to the research of wisdom understood as man s search for truth This search for wisdom rightly called philosophy is a quest without any preconceived ideas an insatiable desire for light which can ultimately enlighten man about every aspect of his existence It must be capable of meeting each man in his experiences in his quest and in his own journey Therefore philosophy is neither Christian nor Buddhist neither European nor American neither African nor Asian It is human and intelligent in the sense that it takes its truth from no other source than that of the real that we encounter and of those who place themselves at its school
