Doing Public Ethnography Phillip Vannini, 2018-07-18 Ethnography and qualitative research methodology in general have witnessed a staggering proliferation of styles and genres over the last three decades Modes and channels of communication have similarly expanded and diversified Now ethnographers have the opportunity to disseminate their work not only through traditional writing but also through aural visual performative hypertext and many diverse and creative multimodal documentation strategies Yet many ethnographers still feel insufficiently proficient with these new literacies and opportunities for knowledge mobilization and they therefore still limit themselves to traditional modes of communication in spite of their desire for innovation As university based community driven and politically mandated agendas for broader knowledge transfer keep increasing worldwide the demand for public scholarship continues to grow Arguing for the need to

disseminate innovative ethnographic knowledge more widely and more effectively this book outlines practical strategies and tools for sharing ethnographic and qualitative research through widely accessible media such as magazines trade books blogs newspapers video radio and social media Drawing from practical experiences and hands on lessons Doing Public Ethnography provides social scientists across all disciplines with concrete tactics for mobilizing knowledge beyond the academic realm *The SAGE Handbook of Organizational Communication* Linda L.
