(EasyRead Super Large 18pt Edition)* ,      Different Visions of Love Brian Griffith, 2008 Griffiths narrative moves like a searchlight over each phase of church history illuminating the visions options and choices behind events He traces the rise of a dominator version of Christianity in which the primary concern was a chain of command to be followed with rewards or punishments according to the degree of obedience And beside this he illuminates another face of Christianity concerned with healing all divisions between loved and unloved people The story Griffith presents is often deeply disturbing as in his unstinting accounts concerning the gospel for women or the age of holy wars and witch hunts But ultimately his story offers solid grounds for optimism He shows that all contention between different religious visions can be a process of building partnership As Griffith points out Jesus himself wished to debate his opponents openly not to silence or eliminate them He was not afraid of real encounter or the potential of creative conflict I want to congratulate Brian Griffith on this masterful controversial and highly readable account His book offers hope in a divided world where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world Riane Eisler author of *The Chalice the Blade Sacred Pleasure* *Tomorrows Children* *The Power of*
