Extraordinary Everyday Photography Awaken Your Vision To Create Stunning Images Wherever You Are Brenda Tharp:

Extraordinary Everyday Photography Brenda Tharp, Jed Manwaring, 2012-08-21 Through accessible discussions and exercises readers learn to use composition available light color and point of view to create stunning photographs in any environment Photographers are born travelers They ll go any distance to capture the right light beautiful landscapes wildlife and people But exotic locales aren t necessary for interesting photographs Wonderful images are hiding almost everywhere you just need to know how to find them Extraordinary Everyday Photography will help you search beyond the surface to find the unexpected wherever you are be it a downtown street a local park or your own front lawn Authors Brenda Tharp and Jed Manwaring encourage amateur photographers to slow down open their eyes and respond to what they see to create compelling images that aren t overworked Inspiring photo examples from the authors taken with DSLRs compact digital cameras and even iPhones show that it is the photographer s eye and creative vision not the gear that make a great image

Contemplative Vision Dirk DeVries, 2019-03-17 Your digital camera or smart phone can be a window to wonder and God There s more to life than selfies With the advent of digital photography and the widespread use of camera equipped smart phones we have all become photographers Can the same technology that makes the upload of selfies and endless posting to Instagram and Facebook also function as a tool for quiet contemplation connection and deeper meaning Indeed yes the practice of contemplative photography invites people of faith to set aside distractions of contemporary life to view the world through the eyes of the divine and uncover the extra ordinary in the ordinary Reflection questions suggested activities invitations to journal and create a volume of discovery and original photographs taken by the author are accompanied by inspirational quotes and passages from scripture Providing practical guidance for photography as a means of meditation and reflection and a form of prayer readers will be encouraged to be seekers open and present ready to be refreshed renewed and delighted

Expressive Nature Photography Brenda Tharp, 2017-07-25 Photographer and teacher Brenda Tharp marries photography craft with artistic vision to help intermediate photographers translate what they see into a personal impression of a subject in nature Using single images along with before and after and with or without examples Expressive Nature Photography teaches how to make exposures that are creative not necessarily correct Inspiring photographers to get out early and stay out late this book explains how to use light an essential element of outdoor photography Readers will learn how to see in the dark use filters to create very long exposures create a natural effect using light painting photograph night skies and moonlit landscapes and make the best use of available natural light This book also covers how to use shutter speeds to express motion and capture the energy of fast moving subjects such rushing streams ocean swells and bounding wildlife A chapter on the art of visual flow discusses how to create compositions that direct the viewer s eye through the frame for maximum impact Photographers will develop a sense of when to break the rules of composition how to use

elements to frame subjects what to include and exclude in the frame how to create the feeling of depth and dimension in a scene and how to push the boundaries of composition to make memorable nature images that capture and convey fresh viewpoints High tech cameras can help create a good exposure and focused image but they can't replace the artist's eye for composition visual depth and design nor their instinct for knowing when to click the shutter There are many books on photography technique focused on technical quality but *Expressive Nature Photography* goes beyond the technical It guides the way to pulling emotion and meaning out of a dynamic landscape a delicate macro study or an outstanding nighttime image
