Stalin's Falcons Dmitry Zubov,2024-05-31 In this stunning expos Dmitry Zubov reveals the dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft on World War II s Eastern Front and the almost slave like conditions in which those aircraft were made The Soviet history of the Second World War written under the conditions of a totalitarian regime reflected all its features with the result that it includes solid sets of patriotic fables that have no connection with reality Many of the events of the war were distorted beyond recognition or even made up from beginning to end Archives containing original documents were available only to selected specially verified KGB historians who presented only the version of the war that was acceptable to the Soviet regime After the collapse of the Soviet Union the process of declassifying archives and gaining wide access to information gradually began to reveal the terrible truth of the crimes of the Soviet regime One of which of course was the incompetent leadership of the Red Army which led to massive loss of life across the military and civilians alike However the consequences of decades of Soviet propaganda had a strong impact on both Russian and world historical science Because of this not only Russian but unfortunately many European and American historians found themselves repeating the Soviet myths they had been fed The history of Soviet fighter aircraft did not escape this fate The tale of Stalin s so called Falcons who allegedly shot down dozens and even hundreds of Luftwaffe aircraft was persistently drummed into the heads of many generations of Russian people These heroes supposedly flew Soviet fighters whose technical characteristics were many times superior to their German counterparts with the result that Luftwaffe aces were reportedly afraid of meeting them in the air These primitive propaganda clich s became a model for describing the actions of Stalin s fighter aircraft In this stunning expos Stalin s Falcons reveals the stark and dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft and the almost slave like conditions in which those aircraft were made

Black Lambs and Grey Falcons John B. Allcock,Antonia Young,2000 During the nineteenth century the Balkan countries b ecame the subject of a rather romantic fascination for the public at large This has had important

consequences for the way in which the region has been viewed since then and the creation of this image has had an impact on the many aspects of West European and North American responses to the Balkans ranging from diplomatic and military involvement to the burgeoning flow of tourists This vision of the area has been created in large measure by the writing of women travellers such as those represented in this volume The achievements of these women are quite remarkable in many cases their travels were adventurous and even dangerous reaching into parts of the countryside which were remote and hardly known to outsiders Not only as travellers but also in the fields of medical and military service scholarship and education journalism and literature did these travellers contribute in very significant ways to the expansion of women's horizons and to the attempt to gain greater freedom for women in society in general

Soaring of the Gulf Falcons Reda Cherif, Fuad Hasanov, 2014-09-24 A key priority for the Gulf Cooperation Council GCC countries is to create a dynamic non oil tradable sector to support sustainable growth Since export diversification takes a long time it has to start now We argue that the failure to diversify away from oil stems mainly from market failures rather than government failures To tackle market failures the government needs to change the incentive structure for workers and firms Experiences of oil exporters that managed to diversify suggest that a focus on competing in international markets and an emphasis on technological upgrade and climbing the quality ladder are crucial

The Falcon and the Snowman Robert Lindsey, 2016-09-06 This fascinating account of how two young Americans turned traitor during the Cold War is an absolutely smashing real life spy story The New York Times Book Review At the height of the Cold War some of the nation's most precious secrets passed through a CIA contractor in Southern California Only a handful of employees were cleared to handle the intelligence that came through the Black Vault One of them was Christopher John Boyce a hard partying genius with a sky high IQ a passion for falconry and little love for his country Security at the Vault was so lax Boyce couldn't help but be tempted And when he gave in the fate of the free world would hang in the balance With the help of his best friend Andrew Daulton Lee a drug dealer with connections south of the border Boyce began stealing classified documents and selling them to the Soviet embassy in Mexico City It was an audacious act of treason committed by two spoiled young men who were nearly always drunk stoned or both and were about to find themselves caught in the middle of a fight between the CIA and the KGB This Edgar Award winning book was the inspiration for the critically acclaimed film starring Timothy Hutton and Sean Penn a true story as thrilling as any dreamed up by Ian Fleming or John le Carr Before Edward Snowden there were Boyce and Lee two of the most unlikely spies in the history of the Cold War
