Reimagining Delilah's Afterlives as Femme Fatale Caroline Blyth, 2017-10-05 The story of Samson and Delilah in Judges 16 has been studied and retold over the centuries by biblical interpreters artists musicians filmmakers and writers Within these scholarly and cultural retellings Delilah is frequently fashioned as the quintessential femme fatale the shamelessly seductive fatal woman whose sexual treachery ultimately leads to Samson's downfall Yet these ubiquitous portrayals of Delilah as femme fatale tend to eclipse the many other viable readings of her character that lie underexplored within the ambiguity laden narrative of Judges 16 interpretations that offer alternative and more sympathetic portrayals of her biblical persona In *Reimagining Delilah's Afterlives as Femme Fatale* Caroline Blyth guides readers through an in depth exploration of Delilah's afterlives as femme fatale in both biblical interpretation and popular culture tracing the social and historical factors that may have inspired them She then considers alternative afterlives for Delilah's character using as inspiration both the Judges 16 narrative and a number of cultural texts which deconstruct traditional understandings of the femme fatale thereby inviting readers to view this iconic biblical character in new and fascinating lights **Frank Capra's Eastern**

Horizons Elizabeth Rawitsch, 2014-10-16 Frank Capra has long had a reputation as being the quintessential American director the man who perfectly captured the identity and core values of the United States with a string of classic films in the 1930s and 40s including *It Happened One Night* *Mr Smith Goes to Washington* and *It's a Wonderful Life* However as Elizabeth Rawitsch argues Capra's construction of national identity did not occur within an exclusively national context She points out that many of his films are actually set in or include sequences set in China Latin America the Philippines and the South Seas Featuring in depth textual analysis supported by original archival research *Frank Capra's Eastern Horizons* explains that Capra's view of what constituted America changed over time extending its boundaries to embrace countries often far from the United States Complicating Edward Said's theory of Orientalism as a strict binary in which the West constructs the East as an inferior other it demonstrates that East and West often intermingle in films such as *The Bitter Tea of General Yen* and in Capra's orientation documentaries for World War II American servicemen Capra imagined a kind of global community albeit one with heavy undertones of British and American imperialism Investigating shifts in what Capra's

America has meant over time both to Capra and to those who have watched and studied his films this innovative book offers a startlingly fresh perspective on one of the most iconic figures in American film history The British National Bibliography
