**Rising Powers and South-South Cooperation** Kevin Gray, Barry Gills, 2018-10-11 This book examines the extent to which a space has opened up in recent years for the so called rising powers of the global South to offer an alternative to contemporary global economic and political governance through emergent forms of South South cooperation In contrast to the Third Worldism of the past the contemporary rising powers share in common the fact that their recent growth owes much to their extensive and increasingly international engagement rather than partial withdrawal from the global economy However they are nonetheless openly critical of the perceived bias towards the global North in the dominant institutions of global governance and seek to alter the global status quo to enhance the influence of the global South Contributions to this volume address the question of whether such engagement particularly on a South South basis can be categorised as a win win relationship or whether we are already seeing the emergence of new forms of competitive rivalry and neo dependency in action What kind of theoretical approaches and conceptual tools do we need to best answer such questions To what extent do new groupings such as BRICS suggest a real alternative to the dominance of the West and of the neoliberal economic globalization paradigm What possible alternatives exist within contemporary forms of South South cooperation This book was originally published as a special edition of Third World Quarterly

*Ethiopian Public Enterprises in Light of Competition Neutrality. The Case in Banking Sector* Saleamlak Yemane, 2021-12-21 Research Paper undergraduate from the year 2019 in the subject Business economics Banking Stock Exchanges Insurance Accounting language English abstract The main objective of this study is to explore Ethiopian public enterprises in light of competition neutrality framework with particular emphasis to the banking sector Establishing SOEs is one of the modes of government intervention in the economy Such direct role of the government in the economy will have both positive and adverse effects in the commercial environment It has positive contributions since public enterprises tried to achieve different social objectives as their primary roles In contrast as a result of being owned by the government they are preferential treated in different manners that impede business activity of private undertaking in the same market Such preferential advantages are not based on better performance superior efficiency better technology or superior management skills but are merely government created To overcome such adverse effects the OECD come up with a competition neutrality framework that connotes a similar set of rules to public enterprises and private undertaking It further

demonstrates major set of rules from different countries experiences These are the similar rules in taxation regime procurement rules bankruptcy rules and proceeding the general applicability of the competition law and its enforcement and the prohibitions of subsidies including exclusive market advantages Currently the Ethiopian government own public enterprises in different sectors of the economy that needs critical assessment from competition neutrality points of view The Ethiopian banking sector in general and one of the state owned bank called CBE conducts are criticized as competition distorting This triggers the study to explore the status of SOEs in light of the areas of competition neutrality framework particular emphasis to the banking sectors The research was conducted based on qualitative research approach by analyzing laws documents and data collected through interview This research is particularly studied by exploring the legal and practical treatment of private and public banks from Ethiopian taxation regime public procurement competition law and enforcement bankruptcy laws and de facto de jure exclusive markets Moreover it tried to pin point adverse effects of such anti competition neutrality rules on private banks

Historical Dictionary of Ethiopia David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa First of all with about 75 million people it is the third most populous country in Africa Second it is very strategically located in the Horn of Africa and bordering Eritrea Sudan Kenya and Somalia with some of whom it has touchy and sometimes worse relations Yet its capital Addis Ababa is the headquarters of the African Union the prime meeting place for Africa s leaders So if things went poorly in Ethiopia this would not be good for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities

politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia      **The Practice of Industrial Policy** John Page, Finn Tarp, 2017 Examines how African policy makers might develop better coordination between the public and private sectors to identify the constraints to faster structural transformation and to design implement and monitor policies to remove them
