Ethnic Protest In Ethiopia The Politics Of Mobilization:

The International Spread of Ethnic Conflict David A. Lake, Donald Rothchild, 2020-10-06 The wave of ethnic conflict that has recently swept across parts of Eastern Europe the former Soviet Union and Africa has led many political observers to fear that these conflicts are contagious Initial outbreaks in such places as Bosnia Chechnya and Rwanda if not contained appear capable of setting off epidemics of catastrophic proportions In this volume David Lake and Donald Rothchild have organized an ambitious sophisticated exploration of both the origins and spread of ethnic conflict one that will be useful to policymakers and theorists alike The editors and contributors argue that ethnic conflict is not caused directly by intergroup differences or centuries old feuds and that the collapse of the Soviet Union did not simply uncork ethnic passions long suppressed They look instead at how anxieties over security competition for resources breakdown in communication with the government and the inability to make enduring commitments lead ethnic groups into conflict and they consider the strategic interactions that underlie ethnic conflict and its effective management How why and when do ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties How can such transnational ethnic conflicts best be managed Following an introduction by the editors which lays a strong theoretical foundation for approaching these questions Timur Kuran Stuart Hill Donald Rothchild Colin Cameron Will H Moore and David R Davis examine the diffusion of ideas across national borders and ethnic alliances Without disputing that conflict can spread James D Fearon Stephen M Saideman Sandra Halperin and Paula Garb argue that ethnic conflict today is primarily a local phenomenon and that it is breaking out in many places simultaneously for similar but largely independent reasons Stephen D Krasner Daniel T Froats Cynthia S Kaplan Edmond J Keller Bruce W Jentleson and I William Zartman focus on the management of transnational ethnic conflicts and emphasize the importance of domestic confidence building measures international intervention and preventive diplomacy

Eurasian Empires as Blueprints for Ethiopia Asnake Kefale,Tomasz Kamusella,Christophe Van der Beken,2021-02-14 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere **Ethiopia: A New Start?** KJETIL

TRONVOLL,2000-04-03 Despite having been equated with the ancient Abyssinian cultures of Amhara and Tigray for centuries there are at least 80 different ethnic groups within Ethiopia Until recently there has been little understanding of their cultures and traditions Ethiopia has traditionally been governed from the centre one of the reasons for the growth of Eritrean nationalist movements which led to the eventual independence of Eritrea This centralization and oppression of different ethnic groups led to the Ethiopian People s Revolutionary Democratic Front EPRDF coming to power in 1991 and promising that Ethiopia s peoples would no longer live under a centralized system which oppressed the majority of the population The new government went on to restructure the State forming an ethnic federation with regional ethnically based

states and creating a most radical and progressive Constitution The Constitution guarantees ethnic groups a wide range of rights including secession from the ethnic federation Yet the government is beset by claims from opposition parties and national and international human rights organizations that it is guilty of widespread violations of human rights Furthermore many ordinary Ethiopians are sceptical of the government's agenda questioning its commitment to promoting the rights of all ethnic groups MRG's Report Ethiopia A New Start analyzes the Constitution which the government has fashioned in order to create confidence among ethnic groups and minorities in Ethiopia The Report discusses the Constitution's key points and focuses on implementation within the federation assessing the claims of the government's detractors The report's author Kjetil Tronvoll gives a balanced historical background to these issues and covers some of the principal areas for Ethiopia's social economic and political development The Report concludes with a series of recommendations aimed at the Ethiopian government and the international community Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Migration and Democracy

Abel Escribà-Folch, Covadonga Meseguer Yebra, Joseph Wright, Covadonga Meseguer, 2022-01-11 In the rich and growing body of work on democracy there has been little attention to the connection between democracy and migration and when there is it is usually in connection with countries that see in migration rather than out migration The latter is the focus of this book which looks specifically at remittances money sent from a migrant back to their home country and how they reshape the internal balance of power by influencing the incentives and opportunities for political action among individuals receiving remittance income Not only do remittances provide the resources that make contentious collective action possible but they also reduce households dependence on state delivered goods and thus undermine the effectiveness of regime patronage strategies that underpin electoral authoritarianism The book starts with a general examination of international migration and associated remittance flows pointing out that remittance flows have become so great as to be one of the largest sources of foreign income in autocracies and one that goes directly to democratizing agents that is to individuals largely circumventing authoritarian governments The authors then look the mechanisms that cause non democracies collapse and how these mechanisms are encouraged by remittances Specifically the authors look at how remittances increase the likelihood of individual level protest decrease the appeal of patronage networks and act as an accelerant during the democratizing process
