Tocqueville's Political Economy Richard Swedberg,2018-02-27 Alexis de Tocqueville 1805 59 has long been recognized as a major political and social thinker as well as historian but his writings also contain a wealth of little known insights into economic life and its connection to the rest of society In Tocqueville s Political Economy Richard Swedberg shows that Tocqueville had a highly original and suggestive approach to economics one that still has much to teach us today Through careful readings of Tocqueville s two major books and many of his other writings Swedberg lays bare Tocqueville s ingenious way of thinking about major economic phenomena At the center of Democracy in America Tocqueville produced a magnificent analysis of the emerging entrepreneurial economy that he found during his 1831 32 visit to the United States More than two decades later in The Old Regime and the Revolution Tocqueville made the complementary argument that it was France s blocked economy and society that led to the Revolution of 1789 In between the publication of these great works Tocqueville also produced many lesser known writings on such topics as property consumption and moral factors in economic life When examined together Swedberg argues these books and other writings constitute an interesting alternative model of

economic thinking as well as a major contribution to political economy that deserves a place in contemporary discussions about the social effects of economics *British Museum Catalogue of Printed Books* ,1895 **CliffsNotes CSET: Multiple Subjects with CD-ROM, 3rd Edition** Stephen Fisher,Jerry Bobrow,2012-04-03 A new edition of one of the bestselling CSET products on the market Reflects the latest changes in the California CSET Multiple Subjects teacher certification test which is now computer based only The book includes diagnostic tests for every domain included in the test detailed subject review chapters and 2 full length practice tests with in depth answer explanations The CD contains all of the book s subject review chapters in searchable PDF format the book s 2 practice tests plus a third full length practice test **Europe on the Path to Self-Destruction** Jack L. Schwartzwald,2022-07-19 Between the years 1815 and 1945 Europe achieved unrivaled global dominance only to see it shattered by two world wars This frenetic rise and fall was attended by immense societal change In 1815 Europe remained largely agricultural and dependent upon horsepower By 1945 the power of the atom had been unleashed Two industrial revolutions occurred in the interim the first founded upon coal iron and steam the second upon oil steel electricity and internal combustion The implications for humanity were profound This concise yet comprehensive study is divided into three sections In section one the map of Europe emerges in its modern visage as unrestrained nationalist fervor gives rise to an assemblage of new nation states In section two the continent attains global hegemony as massive industrialization fuels a mad scramble for colonial markets and raw materials In section three a cauldron of national ethnic and class hatreds spawn the rise of totalitarianism and the overthrow of European hegemony in two calamitous world wars By tracing the events and undercurrents of this vital period in European history this book offers trenchant insights for the lay reader and the student of history alike **Hitler's Empire** Mark Mazower,2009-08-25 Drawing on an unprecedented range and variety of original research Hitler s Empire sheds new light on how the Nazis designed maintained and lost their European dominion and offers a chilling vision of what the world would have become had they won the war Mark Mazower forces us to set aside timeworn opinions of the Third Reich and instead shows how the party drew inspiration for its imperial expansion from America and Great Britain Yet the Nazis lack of political sophistication left them unequal to the task of ruling what their armies had conquered despite a shocking level of cooperation from the overwhelmed countries A work as authoritative as it is unique Hitler s Empire is a surprising and controversial new appraisal of the Third Reich s rise and ultimate fall *Kollektiv und Kollaborativ* Engler, Harald,Herold, Stephanie,Wilks, Scarlett,2022-12-12 **Education Outlook** ,1906 **The Publishers Weekly** ,1899 **Börsenblatt für den deutschen Buchhandel Leipzig** ,1868 American Gardening ,1888
