Bayesian View Jakub Bijak, 2010-10-23 International migration is becoming an increasingly important element of contemporary demographic dynamics and yet due to its high volatility it remains the most unpredictable element of population change In Europe population forecasting is especially difficult because good quality data on migration are lacking

There is a clear need for reliable methods of predicting migration since population forecasts are indispensable for rational decision making in many areas including labour markets social security or spatial planning and organisation In addressing these issues this book adopts a Bayesian statistical perspective which allows for a formal incorporation of expert judgement while describing uncertainty in a coherent and explicit manner No prior knowledge of Bayesian statistics is assumed The outcomes are discussed from the point of view of forecast users decision makers with the aim to show the relevance and usefulness of the presented methods in practical applications Development Macroeconomics Subrata Ghatak,Paul Levine,2009-03-09 The project brings together a number relevant papers on Macroeconomics of Economic Development from many eminent economists from USA UK India and China who are closely associated with the works of Late Professor Anita Ghatak
