An Ethical Approach to Ending Recidivism Michael A. Gray M.A.Ed., 2015-12-28 Law enforcement in a free society must strike a delicate balance between protecting individual rights to professional service especially from government sponsored agencies and the societys interest in professional ethical decision making by law enforcement professionals Often this is seen as one between a principal defense of civil rights and a mere Unitarian interest in improving the continuity of customer service There is no certain place to fix the line between appropriate and Impermissible correctional officer and custody staff professional conduct What is most conspicuous about this area of ethics in Department of corrections is the lack of controlling standards for defining the roles of correctional officers and custody staff The purpose of the correctional Leadership and Ethics Training is to prevent breaches of the peace enforce the laws directives and regulations which govern the correctional institutions to protect its employees the facilities its assets and the nation s currency which function in synchronization Trainees will be able to consult a menu of techniques and be encouraged to contribute ideas of their own

Self-Help Books Sandra K. Dolby, 2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along
