Management of Performance in Supply Chain Pauline Nyokabi Njuguna, Michael Nyangate Basweti, Mercy Mwende Muema, Josphat Mutua Kimeo,2023-06-04 TOPICS IN THE BOOK Influence of ISO 9001 2015 Procurement Quality Management on Performance of Manufacturing Firms in Kenya Influence of Strategic Procurement Management on the Performance of State Corporations in Kenya Effect of Logistics Management Practices on Supply Chain Performance of Manufacturing Firms in Kenya Influence of Contract Administration on Performance of Parastatals in Kenya **Financial Innovation and Stability** Ardhendu Sekhar Nanda,Umesh Kumar,Abdul Rafiu Ibrahim,Emily Nkatha,Jibril Khalif,2024-10-30 TOPICS IN THE BOOK Harnessing RegTech for Financial Inclusion Enhancing Compliance and Security in the Modern Financial Landscape The Advent of Generative AI and Financial Industry The Moderating Role of Liquidity on Financial Leverage and Profitability of Banks in Ghana Impact of Monetary Policy on Stock Market Volatility The Effect of Macroprudential Policies on Financial Stability *Sustainability in Public Procurement, Corporate Law and Higher Education* Lela Melon,2023-12-12 Contemporary changes in law and policy at the global level to efficiently answer to environmental and social issues correspond to the traditional approach of limiting the regulatory and policy changes to a singular field or discipline tackling the inherent unsustainability of corporate laws or incentivising the offering of sustainable finance to stimulate the transition towards sustainable practices This book provides a new viewpoint and approach of simultaneously regulating seemingly non connected fields in order to provide a fertile ground

for a truly organic change towards sustainable outcomes It addresses diverse questions of sustainable transition of the three specific fields to support sustainable practices in public procurement private market transaction and in educating future business leaders and legal experts by incorporating sustainable concerns as the underlying guiding principles of their conduct It translates scientific findings into a practical format that can be used by diverse stakeholders searching for information and solutions in their respective professional fields The underlying assumption is that a simultaneous action in the three respective fields of public procurement corporate law and higher education brings about more coherent and interconnected results that incentivise further action and changes towards sustainable practices The book furthers the idea of policy coherence by building upon the findings in the field of public procurement corporate law and practice and higher education curricula By identifying the barriers in the three respective fields for sustainable action and proposing solutions for either eliminating or minimising those barriers at the EU level the book calls for further changes in the respective fields as well as for considering the spillover effects of these policies on other fields

Smart Contracts in UAE Public Procurement. Factors Influencing Adoption and Policy Implications Moazam Ali,2024-06-18 Doctoral Thesis
Dissertation from the year 2024 in the subject Business economics Project Management grade 3 7 British University in Dubai
course Project Management language English abstract The purpose of this study is to examine people s perceptions about the use of smart contracts through blockchain technology for public procurement in the United Arab Emirates UAE The research integrates the Technology Acceptance Model TAM the Technology Organization Environment TOE framework and the Innovation Diffusion Theory IDT to develop a conceptual framework for understanding the factors that influence the behavioral intention to adopt smart contracts in the public procurement process The study employs a quantitative research methodology Data was collected through a survey questionnaire distributed to key stakeholders involved in public procurement including government officials suppliers and citizens The survey instrument measured constructs such as relative advantage complexity trialability observability perceived compatibility perceived enjoyment technology awareness perceived risk perceived efforts and perceived constraints from suppliers regulations and business partners The findings reveal that relative advantage trialability observability perceived compatibility perceived enjoyment and technology awareness have a significant positive influence on the behavioral intention to adopt smart contracts in public procurement Conversely complexity perceived risk and perceived constraints from suppliers regulations and business partners have a significant negative influence on the behavioral intention The results also indicate that the TAM model moderates the relationships between the various factors and behavioral intention
