Clarke, Valerie Crawford

Pfannhauser, Marcus A. Doel, 2009-05-16 Mobility has long been a defining feature of modern societies yet remarkably little attention has been paid to the various stopping places \_hotels motels and the like\_ that this mobility presupposes If the paradoxical qualities of fixed places dedicated to facilitating movement have been overlooked by a variety of commentators film makers have shown remarkable prescience and consistency in engaging with these still points around which the world is made to turn Hotels and motels play a central role in a multitude of films ranging across an immensely wide variety of genres eras and national cinemas Whereas previous film theorists have focused on the movement implied by road movies and similar genres the outstanding contributions to this volume extend the recent engagement with space and place in film studies providing a series of fascinating explorations of the cultural significance of stopping places both on screen and off Ranging from the mythical elegance of the Grand Hotel through the uncanny spaces of the Bates motel to Korean love motels the wealth of insights from a variety of theoretical perspectives that this volume delivers is set to change our understanding of the role played by stopping places in an increasingly fluid world Play Among Books Miro Roman, Alice \_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice\_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science **Pitch Perfect (movie tie-in)** Mickey Rapkin, 2012-09-04 A musical tale of collegiate a cappella filled of high notes high drama and high jinks that inspired the hit films Pitch Perfect and Pitch Perfect 2 Get ready to be pitch slapped The roots of unaccompanied vocal music stretch all the way back to Gregorian chants of the Middle Ages and collegiate a cappella is over a century old But what was once largely an Ivy League phenomenon has in the past twenty years exploded And it s not what you think Though the blue blazers and khakis may remain a cappella groups at colleges across the country have become downright funky In Pitch Perfect journalist Mickey Rapkin follows a season in a cappella through all its twists and turns covering the breathtaking displays of vocal talent the groupies yes there are a cappella groupies the rock star partying and all the bitter rivalries Rapkin brings you into the world of collegiate a cappella characters from movie star looks and celebrity size egos to a troubled new singer with the megawatt voice Including encounters with a cappella alums like John Legend and Diane Sawyer and fans from Prince to presidents Rapkin shows that a cappella isn t for the faint of heart or lungs Sure to strike a chord with fans of Glee and The Sing Off this raucous story of a cappella rock stars shows that sometimes to get that perfect harmony you have to embrace a little discord The Autobiographer's Handbook Jennifer Traig, 2002-08-06 At last the contemporary masters of memoir have come together to reveal their strategies and impart their advice This book contains an unprecedented wealth of knowledge in one place In The

Autobiographer's Handbook you're invited to a roundtable discussion with today's most successful memoirists. Let Nick Hornby show you how the banal can be brilliant. *Dear Fahrenheit 451* Annie Spence, 2017-09-26. A winsome volume in which the librarian Annie Spence writes letters to books she has loved or not. New York Times Book Review: If you love to read and presumably you do, since you've picked up this book, you know that some books affect you so profoundly they forever change the way you think about the world. Some books, on the other hand, disappoint you so much you want to throw them against the wall. Either way, it's clear that a book can be your new soul mate or the bad relationship you need to end. In *Dear Fahrenheit 451*, librarian Annie Spence has crafted love letters and breakup notes to the iconic and eclectic books she has encountered over the years. From breaking up with *The Giving Tree*, a dysfunctional relationship book, if ever there was one, to her love letter to *The Time Traveler's Wife*, a novel less about time travel and more about the life of a marriage with all of its ups and downs, Spence will make you think of old favorites in a new way. Filled with suggested reading lists, Spence's take on classic and contemporary books is very much like the best of literature: sometimes laugh out loud funny, sometimes surprisingly poignant, and filled with universal truths. Terrifically funny. Library Journal starred review. A smart, funny, forthright librarian in book form. Kirkus Reviews: *Dear Dear Fahrenheit 451* thanks for the lovely reminder of the ways we find ourselves in books. Booklist starred review. Spence has a unique ability to capture the thoughts and feelings of book lovers. NPR.

**Metamedia** Alexander Starre, 2015-08-15. Does literature need the book? With electronic texts and reading devices growing increasingly popular, the codex is no longer the default format of fiction. Yet as Alexander Starre shows in *Metamedia*, American literature has rediscovered the book as an artistic medium after the first e-book hype in the late 1990s. By fusing narrative and design, a number of bibliographic writers have created reflexive fictions, metamedia, that invite us to read printed formats in new ways. Their work challenges ingrained theories and beliefs about literary communication and its connections to technology and materiality. *Metamedia* explores the book as a medium that matters and introduces innovative critical concepts to better

grasp its narrative significance Combining sustained textual analysis with impulses from the fields of book history media studies and systems theory Starre explains the aesthetics and the cultural work of complex material fictions such as Mark Z Danielewski's *House of Leaves* 2000 Chip Kidd's *The Cheese Monkeys* 2001 Salvador Plascencia's *The People of Paper* 2005 Reif Larsen's *The Selected Works of T S Spivet* 2009 and Jonathan Safran Foer's *Tree of Codes* 2010 He also broadens his analysis beyond the genre of the novel in an extensive account of the influential literary magazine McSweeney's *Quarterly Concern* and its founder Dave Eggers For this millennial generation of writers and publishers the computer was never a threat to print culture but a powerful tool to make better books In careful close readings Starre puts typefaces layouts and cover designs on the map of literary criticism At the same time the book steers clear of bibliophile nostalgia and technological euphoria as it follows writers designers and publishers in the process of shaping the surprising history of literary bookmaking after digitization
