Collins, 2009-07-16 A Twentieth Century Collision by several outstanding authors explores intellectual culture in the United States during the twentieth century a topic which cannot be understood without attention to the gradual narrowing of the scope of academic philosophy and its diminishing influence This narrowing signifies a growing indifference to and elimination of genuinely metaphysical and prescriptively ethical questions as well as the bifurcation of faith and reason American Catholic universities it is contended in this book can render a seriously needed contribution to combating the negative effects of this historical development one of which is the separation of questions concerning the ultimate meaning of life from rational inquiry This thesis is pursued by 1 reviewing a highly selective but also highly representative sample of pertinent mainstream philosophical principles and 2 comparing them with principles of Pope John Paul II found in three documents in which he elaborates his views on the nature and role of philosophy and its

relationship to theology in Catholic higher education This project is not unrelated to recent persistent criticism that American Catholic universities have forfeited their identity and thus their unique contribution to American cultural pluralism
