Futurist Typography and the Liberated Text Alan Bartram,2005-01-01 A unique look at how Futurism influenced and changed twentieth century graphic design In the early decades of the twentieth century European artists poets and designers called for the destruction of outdated assumptions about vision and language Numerous manifestos resulted demanding new artistic forms None of these manifestos was more aggressive and poetic or wider in scope than Filippo Tommaso Marinetti's Futurist Manifesto of 1909 Painting sculpture literature architecture theatre cinema and music were all caught up in its net Typography until then a distant relative in the arts also played a major role in Marinetti's program Written by leading design scholar Alan Bartram this fascinating book examines the rise and evolution of the Futurists approach to typography and graphic design placing it within the context of contemporary artistic and literary movements The volume features examples of some eighty Futurist books or other designs for print many of them relatively unknown or previously unpublished accompanied by new translations of over twenty of the featured texts Bartram illuminates the complicated meanings of the Futurist designers graphic works in order to provide a new understanding of their extraordinary and influential visual language **Russian Futurist Theatre** Robert Leach,2018-03-07 Russian Futurist

Theatre explores is the first book to comprehensively uncover the Russian futurist theatre in all its virtuosity and diversity Back to the Futurists Elza Adamowicz,Simona Storchi,2015-11-01 In 1909 the Italian poet Filippo Tommaso Marinetti's

The Futurist Files Iva Glisic, 2018-10-26 Futurism was Russia's first avant garde movement Gatecrashing the Russian public sphere in the early twentieth century the movement called for the destruction of everything old so that the past could not hinder the creation of a new modern society Over the next two decades the protagonists of Russian Futurism pursued their goal of modernizing human experience through radical art The success of this mission has long been the subject of scholarly debate Critics have often characterized Russian Futurism as an expression of utopian daydreaming by young artists who were unrealistic in their visions of Soviet society and naive in their comprehension of the Bolshevik political agenda By tracing the political and ideological evolution of Russian Futurism between 1905 and 1930 Iva Glisic challenges this view demonstrating that Futurism took a calculated and systematic approach to its contemporary socio political reality This approach ultimately allowed Russia's Futurists to devise a unique artistic practice that would later become an integral element of the distinctly Soviet cultural paradigm Drawing upon a unique combination of archival materials and employing a theoretical framework inspired by the works of philosophers such as Lewis Mumford Karl Mannheim Ernst Bloch Fred Polak and Slavoj Žižek The Futurist Files presents Futurists not as blinded idealists but rather as active and judicious participants in the larger project of building a modern Soviet consciousness This fascinating study ultimately stands as a reminder that while radical ideas are often dismissed as utopian and impossible they did and can have a critical role in driving social change It will be of interest to art historians cultural historians and scholars and students of Russian history
