Gilded Suffragists Johanna Neuman, 2019-03-01 New York City's elite women who turned a feminist cause into a fashionable revolution In the early twentieth century over two hundred of New York's most glamorous socialites joined the suffrage movement Their names Astor Belmont Rockefeller Tiffany Vanderbilt Whitney and the like carried enormous public value These women were the media darlings of their day because of the extravagance of their costume balls and the opulence of the French couture clothes and they leveraged their social celebrity for political power turning women's right to vote into a fashionable cause Although they were dismissed by critics as bored socialites trying on suffrage as they might the latest couture designs from Paris these gilded suffragists were at the epicenter of the great reforms known collectively as the Progressive Era From championing education for women to pursuing careers and advocating for the end of marriage these women were engaged with the swirl of change that swept through the streets of New York City Johanna Neuman restores these women to their rightful place in the story of women's suffrage Understanding the need for popular approval for any social change these socialites used their wealth power social connections and style to excite mainstream interest and to diffuse resistance to the cause In the end as Neuman says when change was in the air these women helped push women's suffrage over the finish line

Dames in the Driver's Seat Jans B. Wager, 2009-03-06 With its focus on dangerous determined femmes fatales hardboiled detectives and crimes that almost but never quite succeed film noir has long been popular with moviegoers and film critics alike Film noir was a staple of classical Hollywood filmmaking during the years 1941 1958 and has enjoyed a resurgence in popularity since the 1990s *Dames in the Driver's Seat* offers new views of both classical era and contemporary noirs through the lenses of gender class and race Jans Wager analyzes how changes in film noir's representation of women's and men's roles class status and racial identities mirror changes in a culture that is now often referred to as postmodern and postfeminist Following introductory chapters that establish the theoretical basis of her arguments Wager engages in close readings of the classic noirs *The Killers* *Out of the Past* and *Kiss Me Deadly* and the contemporary noirs *L A Confidential* *Mulholland Falls* *Fight Club* *Twilight* *Fargo* and *Jackie Brown* Wager divides recent films into retro noirs made in the present but set in the 1940s and 1950s and neo noirs made and set in the present but referring to classic noir narratively or stylistically Going beyond previous studies of noir her perceptive readings of these films reveal that retro noirs fulfill a reactionary social function looking back nostalgically to

outdated gender roles and racial relations while neo noirs often offer more revisionary representations of women though not necessarily of people of color

The Individual in Business Ethics T. Kavaliauskas, 2010-11-24 Today we are witnessing social and political dominance of large corporations They provide for its employees moral values and business principles Moreover they institutionalize their codes of ethics The theory of Business Ethics provides the moral guideline and standards for corporate life and concrete business organizations apply those standards to practice The individual employee as a member of a business organization accepts those standards Therefore it is important to examine the foundation of the individual's moral value in Business Ethics in order to understand on what the foundation of the moral value depends on This highly interdisciplinary text is a critique of Business Ethics as an ideology and life politics The author discloses how contemporary business ethics grovels before corporations how it is too weak to create a truly critical voice of American capitalist economy The individual's treatment in corporate life is revealed through the eyes of American Protestant culture and its coercive work tradition where efficiency value usurps values of individual choice and freedom This book suggests a new concept of an out corporate individual

Education Is Translation Alison Cook-Sather, 2006 Her analysis

reveals how teaching and learning are intimately linked together how technology can transform learning and how teachers and learners must reposition themselves in order to achieve the most transformative education Jacket **The Nature of Cities** Michael Bennett, David Warfield Teague, 1999-10 Cities are often thought to be separate from nature but recent trends in ecocriticism demand that we consider them as part of the total environment This new collection of essays sharpens the focus on the nature of cities by exploring the facets of an urban ecocriticism by reminding city dwellers of their place in ecosystems and by emphasizing the importance of this connection in understanding urban life and culture The editors both raised in small towns but now living in major urban areas are especially concerned with the sociopolitical construction of all environments both natural and manmade Following an opening interview with Andrew Ross exploring the general parameters of urban ecocriticism they present essays that explore urban nature writing city parks urban wilderness ecofeminism and the city and urban space The volume includes contributions on topics as wide ranging as the urban poetry of English writers from Donne to Gay the manufactured wildness of a gambling casino and the marketing of cosmetics to urban women by idealizing Third World naturalness These essays seek to reconceive nature and its cultural representations in ways that contribute to understanding the contemporary cityscape They explore the theoretical issues that arise when one attempts to adopt and adapt an environmental perspective for analyzing urban life The Nature of Cities offers the ecological component often missing from cultural analyses of the city and the urban perspective often lacking in environmental approaches to contemporary culture By bridging the historical gap between environmentalism cultural studies and urban experience the book makes a statement of lasting importance to the development of the ecocritical movement CONTENTS Part 1 The Nature of Cities 1 Urban Ecocriticism An Introduction Michael Bennett David Teague 2 The Social Claim on Urban Ecology Andrew Ross interviewed by Michael Bennett Part 2 Urban Nature Writing 3 London Here and Now Walking Streets and Urban Environments in English Poetry from Donne to Gay Gary Roberts 4 All Things Natural Are Strange Audre Lorde Urban Nature and Cultural Place Kathleen R Wallace 5 Inculcating Wildness Ecomposition Nature Writing and the Regreening of the American Suburb Terrell Dixon Part 3 City Parks 6 Writers and Dilettantes Central Park and the Literary Origins of Antebellum Urban Nature Adam W Sweeting 7 Postindustrial Park or Bourgeois Playground Preservation and Urban Restructuring at Seattle's Gas Works Park Richard Heyman Part 4 Urban Wilderness 8 Boyz in the Woods Urban Wilderness in American Cinema Andrew Light 9 Central High and the Suburban Landscape The Ecology of White Flight David Teague 10 Manufacturing the Ghetto Anti urbanism and the Spatialization of Race Michael Bennett Part 5 Ecofeminism and the City 11 An Ecofeminist Perspective on the Urban Environment Catherine Villanueva Gardner 12 You Make Me Feel Like a Natural Woman The Political Economy of Contemporary Cosmetics Discourse Laura L Sullivan Part 6 Theorizing Urban Space 13 Darwin's City or Life Underground Evolution Progress and the Shapes of Things to Come Joanne Gottlieb 14 Nature in the Apartment Humans Pets and the Value of Incommensurability David R Shumway 15 Cosmology in

the Casino Simulacra of Nature in the Interiorized Wilderness Michael P Branch *The Thinking Crisis* T. Ellen Hill, Joel L. Shatzky, 2001 The objectives of *The Thinking Crisis* are to examine the reasons for the decline in the quality of student writing by what is taught and learned in high school to demonstrate the consequences of this decline by examining current student writing in college to compare this writing with student writing of twenty years ago to suggest ways in which this disconnection between what a teacher teaches and what a student needs to learn can be ameliorated We believe that this book is unique in its approach to problems that we see in student writing today in that it neither advocates nor rejects the present pedagogy in the schools but it argues that this pedagogy be properly implemented While many of the ideas advanced today for improving writing are sound they are often misinterpreted and poorly taught We also argue that the lowering of the level of student reading by the general abandonment of classic texts in the curriculum has contributed to the decline in thinking reading and writing *Rereading America* Gary Colombo, Robert Cullen, Bonnie Lisle, 2018-12-06 *Rereading America* remains the most widely adopted book of its kind because it works instructors tell us time and again that they've watched their students grow as critical thinkers and writers as they grapple with cross curricular readings that not only engage them but also challenge them to reexamine deeply held cultural assumptions such as viewing success solely as the result of hard work Extensive apparatus offers students a proven framework for revisiting revising or defending those assumptions as students probe the myths underlying them *Rereading America* has stayed at the forefront of American culture contending with cultural myths as they persist morph and develop anew The eleventh edition features a refreshed collection of readings with an updated chapter that introduces students to one of the most pervasive myths of our time technological innovation fosters an improved society Also in response to instructors requests for more writing instruction there are now more questions that help students apply to their own writing the strategies used in the readings *Practicing Transnationalism* Eileen T. Lundy, Edward J. Lundy, 2016-09-06 *Practicing Transnationalism* explores the challenges of teaching American studies in the Middle East during a time of tension and conflict between the United States and the region In the first decade of the twenty first century American studies programs began to spread in the Middle East During a time of rising anti American sentiment ten major programs were established in the region What impulses propelled universities in the Middle East to establish these centers and programs What motivated students to take courses and pursue degrees in American studies In part American studies programs developed as a way to know the enemy to better understand America's ubiquitous influence in foreign relations technology and culture however some programs grew because residents admired the ideals set forth as American including democracy and free speech *Practicing Transnationalism* investigates these issues and others using the experiences and research of the editors and contributors who worked either directly in these programs or as adjunct to them These scholars seek to understand what American power means to people in the Middle East They examine the challenge of developing American studies programs in a transnational paradigm striving to build programs that are

separate from and critical of American imperialism without simply becoming anti American In the essays the contributors provide context for how the field of American studies has grown and developed and they offer views of cultural interactions and classroom situations demonstrating the problems instructors faced and how they worked to address them *Reading Harry Potter* Giselle Liza Anatol, 2003-05-30 J K Rowling achieved astounding commercial success with her series of novels about Harry Potter the boy wizard who finds out about his magical powers on the morning of his eleventh birthday The books incredible popularity and the subsequent likelihood that they are among this generation s most formative narratives call for critical exploration and study to interpret the works inherent tropes and themes The essays in this collection assume that Rowling s works should not be relegated to the categories of pulp fiction or children s trends which would deny their certain influence on the intellectual emotional and psychosocial development of today s children The variety of contributions allows for a range of approaches and interpretive methods in exploring the novels and reveals the deeper meanings and attitudes towards justice education race foreign cultures socioeconomic class and gender Following an introductory discussion of the Harry Potter phenomenon are essays considering the psychological and social developmental experiences of children as mirrored in Rowling s novels Next the works literary and historical contexts are examined including the European fairy tale tradition the British abolitionist movement and the public school story genre A third section focuses on the social values underlying the Potter series and on issues such as morality the rule of law and constructions of bravery **Critical Issues in Education** Eugene F. Provenzo, 2006-04-06 Publisher description **Educating the Hungarian Roma** Andria D. Timmer, 2016-12-13 This book is based on 18 months of ethnographic research with nongovernmental organizations NGOs that take the primary interventionist role in Roma education throughout Hungary Through the use of ethnographic interviews long term participant observation and textual analysis of NGO websites pamphlets and promotional materials Andria D Timmer examines the nongovernmental sector as the locale in which the politicized Gypsy identity is constructed interpreted and contested Many NGOs uphold the provider beneficiary dichotomy which blames failures on cultural or ethnic differences rather than address the discrimination racism segregationist policies and outright violence against the Roma This policy has further exacerbated the residential isolation discrimination and manufactured sense of cultural differences that enables the continued practice of segregating Roma children into ethnically homogeneous schools or classrooms that commonly offer less quality education than that which their majority peers receive Common Ground Elizabeth G. Peck, JoAnna Stephens Mink, 1998-01-01 This examination of feminist collaboration reconceptualizes ideas about creativity cooperation and competition in higher education **Respectable** Saida Grundy, 2022-08-16 An Atkinson Family book in higher education Back cover *Rethinking School Reform* Linda Christensen, Stan Karp, 2003 Rethinking School Reform puts classrooms and teaching at the center of the debate over how to improve public schools Drawing on some of the best writing from the quarterly journal Rethinking Schools this new collection offers a primer on a broad range of pressing issues including school

vouchers and funding multiculturalism standards and testing teacher unions bilingual education and federal education policy Informed by the experience and passion of teachers who walk daily into real classrooms *Rethinking School Reform* examines how various reform efforts promote or prevent the kind of teaching that can bring equity and excellence to all our children and it provides compelling practical descriptions of what such teaching looks like **Teaching Cross-Cultural Values** Deborah Gonzalez, 2004-12 *Teaching Cross Cultural Values* came out of the need to give students an interactive experience with the course materials and to be able to gently coax them to reevaluate their own values and concepts on diverse cultures in a relatively safe comfortable atmosphere To do that I had to put the focus on them and lead them through the steps by helping them develop critical thinking skills skills that once developed and embedded as a thinking tool would continue to help students meet the challenge of questioning what they see and experience and then analyze their own thinking processes to understand those different from them for long after they leave the classroom The critical reasoning skills explored in this collection of interactive activities are 1 Analytical Thinking Critical Analysis 2 Associative Thinking 3 Creative Thinking 4 Critical Thinking 5 Evaluative Thinking 6 Hypothesis Problem Solving 7 Inductive Deductive Thinking 8 Perceptual Thinking Interpretation Summarizing 9 Questioning 10 Synthesizing *Heart Beats* Catherine Robson, 2015-03-22 Many people in Great Britain and the United States can recall elderly relatives who remembered long stretches of verse learned at school decades earlier yet most of us were never required to recite in class *Heart Beats* is the first book to examine how poetry recitation came to assume a central place in past curricular programs and to investigate when and why the once mandatory exercise declined Telling the story of a lost pedagogical practice and its wide ranging effects on two sides of the Atlantic Catherine Robson explores how recitation altered the ordinary people who committed poems to heart and changed the worlds in which they lived *Heart Beats* begins by investigating recitation's progress within British and American public educational systems over the course of the nineteenth and twentieth centuries and weighs the factors that influenced which poems were most frequently assigned Robson then scrutinizes the recitational fortunes of three short works that were once classroom classics Felicia Hemans's *Casabianca* Thomas Gray's *Elegy Written in a Country Churchyard* and Charles Wolfe's *Burial of Sir John Moore after Corunna* To conclude the book considers W E Henley's *Invictus* and Rudyard Kipling's *If* asking why the idea of the memorized poem arouses such different responses in the United States and Great Britain today Focusing on vital connections between poems individuals and their communities *Heart Beats* is an important study of the history and power of memorized poetry **Forum**, 1998
