biographical portrayal of Paarthiv from Kashmir in the early fifties of the last century He was transferred by his employer to
Calcutta only after three months of his marriage much to the utter displeasure of the new weds then of course for the obvious
reasons As ill luck would have it he lost his job there for whatever reasons and went penniless He was neither able to return
back home nor was he able to sustain his living as a stranger to the city there unfamiliar to him in every respect including the
ethnic language for communication But being an embodiment of confidence and courage he fought his way to rise from
destitution to an enviable affluence and came to be regarded as one of the most charismatic alien celebrities of the place
known otherwise for its orthodox civility However in the world of audacious society there he stayed alienated from his wife
who had given birth to his son only about six months of his departure from his home The couple remained alienated and
estranged from each other for sixteen long years Then the happy rendezvous of the family took place through a fateful
coincidence brought about by Parijat the mentor of their son interestingly personified by the author himself The period that
followed is an absorbing description of funny incidents superstition travels to places atonement teen age romance and a saga
of highs and lows offered by the life in many wishful and weird ways The novel establishes the fact of life as A Spectacle of
Characters Episodes and Scenes Scripted by Destiny which makes it a very interesting read **Proceedings** Institution of
