**Computer Literature Bibliography** United States. National Bureau of Standards,1965 *Proceedings of the 3rd International Conference on Internet, Education and Information Technology (IEIT 2023)* Dhananjay Kumar,Pavel Loskot,Qingliang Chen,2023-09-01 This is an open access book The 3rd International Conference on Internet Education and Information Technology IEIT 2023 was held on April 28 30 2023 at the Xiamen China With the development of science and technology information technology and information resources should be actively developed and fully applied in all fields of education and teaching so as to promote the modernization of education and cultivate talents to meet the needs of society From the technical point of view the basic characteristics of educational informatization are digitalization networking intelligentization and multi media From the perspective of education the basic characteristics of educational information are openness sharing interaction and cooperation With the advantage of the network it can provide students with a large amount of information

and knowledge by combining different knowledge and information from various aspects in a high frequency Therefore we have intensified efforts to reform the traditional teaching methods and set up a new teaching concept from the interaction between teachers and students in the past to the sharing between students In short it forms a sharing learning mode For all students strive to achieve students learning independence initiative and creativity To sum up we will provide a quick exchange platform between education and information technology so that more scholars in related fields can share and exchange new ideas The 3rd International Conference on Internet Education and Information Technology IEIT 2023 was held on April 28 30 2023 in Xiamen China IEIT 2023 is to bring together innovative academics and industrial experts in the field of Internet Education and Information Technology to a common forum The primary goal of the conference is to promote research and developmental activities in Internet Education and Information Technology and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in international conference on Internet Education and Information Technology and related areas
