- **Communication activities:** *Student's Book* pages 138 & 140
- **Pairwork.** Put students into A and B pairs and ask them to turn to their respective pages and study the photo.
- They then work with their partner and show each other their photo. They describe the similarities and differences between the two photos and decide what links them.
- Refer students to the *Useful language* box below the exercise to help them.

That people sometimes use animals to work and entertain them.

- **Pairwork.** Students use the categories in the box to discuss with a partner the different ways animals are used by humans.

Possible answers:

leisure/entertainment: circuses
research: testing on animals for medical purposes or to test cosmetics
security: sniffer dogs to test for drugs or explosives at airports; to protect property
sport: horseracing; greyhound racing; fox hunting
work: dogs for the blind and other disabilities;
workhorses for pull carts; mules and camels to carry people's belongings in some countries

- Pairs join up with another pair to compare their ideas in exercise 2. They then discuss the questions.

DID YOU KNOW?

- **Pairwork.** Students read the information and discuss the questions.
- You could then ask students to report back briefly on anything interesting they heard in their discussions.

microwave power semiconductor devices i critical review - Jan 24 2023

web jan 1 1976 this chapter focuses on the two terminal devices that is bulk and junction diodes of the microwave power semiconductor devices the two terminal devices are mostly used to make oscillators however with certain provisions they may also be used for amplifiers or switching devices although the circuits involved may increase in complexity

microwave semiconductor control devices ieee journals - Sep 19 2022

web three topics on microwave semiconductor control devices are discussed field effect transistors fet s switching speed and power and millimeter wave devices this paper reviews present switching limiting and phase modulating with fet s and proposes a new structure for switching with them

numerical algorithms for modelling microwave semiconductor devices - Aug 19 2022

web this paper presents an analysis of the numerical algorithms used to model microwave semiconductor devices a comparison is made of the relative merits and features of the more popular finite difference schemes

microwave semiconductor defense electronic systems - Aug 31 2023

web toshiba microwave semiconductor business unit provides key devices for highly networked society with its extensive and outstanding technologies such as internal matching and power combining for high power fets high precision and sophisticated fine

microwave semiconductor devices iopscience - May 28 2023

web mar 1 1985 the field of microwave semiconductor devices has expanded greatly in recent years both in the functions that may be performed and the range of devices available for any function the upper frequency limits of transistor operation have also marched steadily upwards with millimeter wave above 30 ghz operation being

1 a system introduction to microwave electronics - Oct 21 2022

web nov 10 2017 before 1970 high frequency systems were based on vacuum tube generators in the following decades solid state semiconductor devices able to operate above 1 ghz based both on silicon and on compound semiconductor technologies were gradually introduced leading to a new paradigm the hybrid and then monolithic

microwave semiconductor devices diode transistor mmic semiconductor - Jul 18 2022

web this page covers microwave semiconductor devices which include microwave diode point contact diode hot carrier diode varactor diode step recovery diode gunn diode impatt trapatt diode tunnel diode microwave transistor and mmic as we know at microwave frequencies conventional transistors and diodes do not function as

microwave electronics springerlink - Feb 22 2023

web it comprehensively discusses the main types of microwave vacuum and microwave semiconductor devices their principles of action theory parameters and characteristics as well as ways of increasing the frequency limit of various devices up to the terahertz frequency band

iet digital library microwave semiconductor devices - Mar 14 2022

web devices described are frequency multipliers up converters parametric amplifiers tunnel diodes backward diodes hot electron devices and gunn effect oscillators some of the problems and developments which the future may hold are discussed

microwave semiconductor devices theory technology and - Dec 23 2022

web nov 1 2004 january 1994 ieee transactions on microwave theory and techniques stephen maas kwo wei chang this paper describes a new type of planar monolithic diode mixer achieving 5 10 db conversion
