The Gyroscopic Transformation of Self Quest in W. B. Yeats's Poetry Özlem Saylan, 2019-01-17 Carrying a story to tell is the ancient burden of craftsmen and it is one of the characteristics of the quest to find oneself since a journey requires recognition of the aspects of self and anti self Like the speaker of his poems W B Yeats has something to tell His poetry draws nourishment from the battle between the dichotomies of self and anti self human and divine mind and intellect past and present and body and soul This book covers a selection of Yeats's poems from 1889 to 1939 discussing them within the frame of the quest to find oneself and its gyroscopic transformation The book illustrates that self is not a single entity but has multiple layers and it can be found within the quest in which it experiences a simultaneous transformation with every phase of the antithetical structure of gyroscopic movements In addition the way of the quest is cyclical however it is not a vicious cycle since in life every end is a phase of a beginning and every beginning is a phase of an end

The Wisdom of Jesus Charles W Hedrick, 2017-04-27 How would our understanding of Jesus change if we abandoned our preconceptions and focussed on his words alone How would this wisdom

compare with that of ancient Israel and the early first century church. Such questions pose serious difficulties. Everything in the early Christian gospels is either derived from historical memory or is borrowed or invented, argues Charles W. Hedrick. Of the many sayings attributed to Christ, historians can only agree on a few as having been spoken by him, and those few are far from certain. In *The Wisdom of Jesus*, Hedrick overcomes these challenges, presenting a picture of Jesus as expressed through his own words. The Jesus that emerges is a lower class man of the first century, a complex figure who cannot be considered religious in a traditional sense. Liberated from theological explanation and interpretation, his discourse is revealed as belonging to the secular world and his concerns to be those of common life.

Parabolic Figures or Narrative Fictions?

Charles W. Hedrick, 2016-06-10. Hedrick contends that parables do not teach moral and religious lessons; they are not in whole or part theological figures for the church. Rather, parables are realistic narrative fictions that, like all effective fiction, literature is designed to draw readers into story worlds where they make discoveries about themselves by finding their ideas challenged and subverted or affirmed. The parables have endings but not final resolutions because the endings raise new complications for careful readers which require further resolution. The narrative contexts and interpretations supplied by the evangelists constitute an attempt by the early church to bring the secular narratives of Jesus under the control of the church's later religious perspectives. Each narrative represents a fragment of Jesus's secular vision of reality. Finding himself outside the mainstream of parables scholarship, both ecclesiastical and critical, Hedrick explored a literary approach to the parables in a series of essays that, among other things, set out the basic rationale for a literary approach to the parables of Jesus. These early essays form the central section of the book. They are published here in edited form along with unpublished critiques of a thoroughgoing literary approach and his response.
