performances he elicits from his young stars in films such as E T The Extra Terrestrial A I Artificial Intelligence and Empire of the Sun as well as less discussed roles in films such as War of the Worlds The BFG and Jurassic Park this book shows children to be key players in the director s articulation of childhood since the 1970s Steven Spielberg s Children presents children and childhood in some surprising ways not only analyzing boyhood and girlhood according to Spielberg but considering children as alien adult children who refuse to grow up and children who aren t even human It discusses the way in which children have served to cast Spielberg as a sentimentalist but also how they are more frequently framed as complex cruel and canny The child might be dangled as bait in an exploitation horror scenario Jaws might become the image of universal higher beings Close Encounters of the Third Kind or might be a young cultural creator like the director was himself The Fabelmans born with a camera glued to his eye The child on both sides of the camera is a resonant image signifying all that adult culture wants it to be yet resisting this through authorship of their own stories The book also looks at Spielberg s young actors in the long history of child stars in theater and cinema and how Spielberg s children have fared as performers and celebrities
