Embracing Mind B. Alan Wallace, Brian Hodel, 2008-12-23 What is Mind For this ancient question we are still seeking answers B Alan Wallace and Brian Hodel propose a science of the mind based on the contemplative wisdom of Buddhism Hinduism Taoism Christianity and Islam The authors begin by exploring the history of science showing how science tends to ignore the mind even while it is understood to be the very instrument through which we comprehend the world of nature They then propose a contemplative science of mind based on the sophisticated techniques of meditation that have been practiced for thousands of years in the great spiritual traditions The final section presents meditations that are of universal
