Die Kritische Theorie zwischen Spätmoderne und Postmoderne: Nostalgie als Kritik Peter V. Leitch, 1996-07-01 Offers readable case studies in postmodern economics philosophy literary criticism feminism pedagogy poetry painting historiography and cultural studies showing disorganization as characteristic of postmodern times *North American Critical Theory After Postmodernism* P. Nickel, 2012-08-21 In a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics *Postmodernism and the Holocaust*, 2021-10-25 This book is the first sustained inquiry into the ways in which postmodern thinkers have grappled with the historical bases implications and methodological problems of the Holocaust The book examines the thinking of Arendt Levinas Foucault Lyotard and Derrida all of whom have recognized the centrality of the Nazi genocide to the epoch in which we live The essays written for this volume constitute a wide ranging study of the efforts of postmodernism to articulate the Holocaust **International Postmodernism** Johannes Willem Bertens, Hans Bertens, Douwe Fokkema, 1997 Containing more than fifty essays by major literary scholars International Postmodernism divides into four main sections The volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with

postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing The final and fourth section deals with the reception and processing of postmodernism in different parts of the world Three important aspects add to the special character of International Postmodernism The consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i e the reader s knowledge experience interests and competence as crucial factors in text interpretation This comprehensive study does not expressly focus on American postmodernism although American interpretations of postmodernism are a major point of reference The recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of postmodernism made the editors Hans Bertens and Douwe Fokkema opt for the title International Postmodernism

Consumer Culture in America Wilber W. Caldwell, 2024-10-01 An invasive new American value system is taking over characterized by the embrace of leisure the worship of the commodity the adoration of the celebrity the enshrinement of material success and the veneration of wealth Caldwell reveals how we are herded to assure the perpetual expansion of the economic sphere and exposes the effects on American life In Consumer Culture in America Wilber W Caldwell observes that we are seduced lured into a sparkling web so enticing that we perceive no reason to struggle This book explores the enormous power of the marketplace that is reflected so vividly by the countless agents of our popular culture as it pulls everything into its all encompassing orbit Oblivious to the runaway self perpetuating power that seeks to controls us we are lost in a maze of materialist illusions created by a system that possesses only limited perspectives and sensitivities in the realms of social justice war human exploitation and the fragility of the natural world Our politicians may pay lip service to these issues but at the end of the day they are only puppets chosen and controlled by a system that understands the value of creating illusions including the illusion that these issues are being addressed Consumer Culture in America first explores the history and development of modern consumer culture then carefully examines its intellectual and ideological underpinnings and finally scrutinizes the current situation This book answers many of our society s most compelling questions Are our media driven marketplace illusions so enticing as to effectively mute any possible outcry of resistance silence the historically predictable anthem of the exploited by obscuring from them the fact of their own exploitation and sate any desire aimed at breaking the chains of material bondage Does this culture of the commodity effectively mask widespread inequity poverty powerlessness environmental plunder even murder and genocide Are we willing slaves to an invisible force that shapes our beliefs and our desires while it blinds us to its own workings Or does today s consumer culture have another side Does it also spawn unforeseen meanings and supply important material and symbolic resources that ordinary people can use to invigorate their lives their identities and their culture in an otherwise hostile world The ruinous effects of modern American consumer culture are complex and deep rooted At its core cultural operations seek to alter our perception of reality itself by

so intensely focusing our attention on the gleaming reflection of the commodity that we become unable to see the wider world Any realistic remedy will entail removing the veil and exposing our blindness Indeed part of the solution may lie within the complex folds of the culture itself We may already be discovering unforeseen meanings amid the glitter symbolic resources that we can creatively use to invigorate our lives reconstruct our trampled identities and rekindle the flickering fires of both the individualism and the community that once burned so brightly at the heart of our democracy

White Feminists and Contemporary Maternity D. Hallstein,2010-03-29 This work explores matrophobia the fear not of one's mother or of motherhood but of becoming one's mother in past and present white feminist analyses of motherhood and mothering By tracing white second wave feminism's strategic choice to organize first as sisters then as daughters O'Brien Hallstein argues matrophobia became embedded in past and continues to linger in contemporary feminist analyses As a result contemporary analyses reveal crucially important but limited understandings of contemporary motherhood and mothering This important work concludes that matrophobia can be reduced and eliminated by reorienting analyses to mutual responsiveness between sisters and daughters second and third wave feminists

The Solidarity of Others in a Divided World Anselm Kyongsuk Min,2004-02-03 Using the paradigm of solidarity of others as the central theme of theology this book shows that it is possible to renew the doctrine of the Holy Spirit as the Spirit of solidarity and recapture the potential of the body of Christ as embodiment of this solidarity

Sign Wars Robert Goldman,Stephen Papson,1996-05-21 Television has become so saturated with commercials that it is difficult at times to tell the different images apart much less remember or care about them But on closer look television commercials can tell us a great deal about the interplay of market forces contemporary culture and corporate politics This book views contemporary ad culture as an ever accelerating war of meaning The authors show how corporate symbols or signs vie for attention span and market share by appropriating and quickly abandoning diverse elements of culture to differentiate products that may be in themselves virtually indistinguishable The resulting sign wars are both a cause and a consequence of a media culture that is cynical and jaded but striving for authenticity Including more than 100 illustrations and numerous examples from recent campaigns this book provides a critical review of the culture of advertising It exposes the contradictions that stem from turning culture into a commodity and illuminates the impact of television commercials on the way we see and understand the world around us

Higher Superstition Paul R. Gross,Norman Levitt,1997-11-06 With the emergence of cultural studies and the blurring of once clear academic boundaries scholars are turning to Subjects far outside their traditional disciplines and areas of expertise In Higher Superstition scientists Paul Gross and Norman Levitt raise serious questions about the growing criticism of science by humanists and social scientists on the academic left This paperback edition of Higher Superstition includes a new afterword by the authors

The Politics of Cyberspace Chris Toulouse,Timothy W. Luke,2013-12-16 The Politics of Cyberspace provides an overview of the impact of the world wide web on the political process Chris Toulouse organizes the articles

according to their theoretical approach those who take up Habermas's concern with civil society and those who take up the postmodern critique of popular culture.
